President and Members of the Board of Education Wilmette Public Schools District 39 615 Locust Road Wilmette, Illinois 60091

The Comprehensive Annual Financial Report of Elementary School District 39, Wilmette, Illinois, for the fiscal year ended June 30, 2013 is submitted herewith. The audit fieldwork was completed on August 28, 2013 and the report was subsequently issued. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data as presented are: (1) accurate in all material aspects, (2) presented in a manner designed to fairly set forth the financial position and results of operations of the District as shown by the disclosure of all financial activity of its various funds; and (3) that all disclosures necessary for maximum public understanding of the District's financial status have been incorporated in the report.

Generally accepted accounting principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditors' report.

BASIS OF ACCOUNTING AND REPORTING

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial and Statistical. The Introductory Section includes the transmittal letter, the District's organizational chart, and a list of principal officials. The Financial Section includes the management's discussion and analysis, government-wide financial statements, the fund financial statements, required supplementary information, individual fund statements, as well as the independent auditors' report. The Statistical Section includes a number of tables of unaudited data depicting the financial history of the District for the past ten years, demographics, and other miscellaneous information.

School District 39 is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Non-profit Organizations." Information related to this single audit, including the schedule of federal expenditures of federal awards, findings and recommendations and independent auditors' report on the internal control structure and compliance with applicable laws and regulations are included in a separate report.

Ì

This report includes all funds of the District. The District reports on the full accrual basis of accounting for its government-wide financial statements and modified accrual for its fund financial statements. These bases are applied to the District's budget and accounting records. The Notes to Basic Financial Statements expand upon these bases as well as the District's accounting policies and procedures. All District funds are included in this report and have been audited by Klein Hall CPAs.

GENERAL INFORMATION

The District is located approximately 15 miles north of the Chicago Loop, bordering Lake Michigan and comprises most of the Village of Wilmette and a small portion of Glenview. The village is a residential community with a population of about 26,119. It consists of moderate to high-income residential housing and a prosperous commercial downtown area. There is no heavy industry in Wilmette, wilmette, as a community, is built out.

District 39 was founded in 1901 and currently includes four elementary schools, one middle school, one junior high school and an administration building and had an enrollment of 3,642 in 2013. An elected 7-member Board of Education and a full-time administrative staff govern the District. The District employs 542 persons. Of these, 17 are administrators, 325 are teachers and 200 are non-certified personnel. Elementary students in the District continue their education at New Trier Township High School, which is recognized as one of the leading high school educational institutions in the United States.

District 39 enjoys a high level of parental participation and involvement because parents make it a priority to be involved in their children's education. Many adults are engaged in professional pursuits. The high academic level characterizing the community contributes to the respect citizens have for quality education. As a result, citizens devote substantial time and effort to ensure that excellence prevails.

Community involvement is of paramount importance to District 39. Integral to the community is the Wilmette Educational Foundation, which provides financial assistance to support individual, school, and community endeavors. Teachers, administrators, the Board of Education, and community members value the Foundation as well. Community members are also involved in the Community Review Committee that helps study and prioritize goals for the school district.

REPORTING ENTITY

The District defines its reporting entity by applying the criteria set forth in GASB 14 to potential component units. Briefly, a component unit is an organization for which the District is financially accountable or other organizations that, because of the nature or significance of their relationship with the District, would cause the District's financial statements to be misleading or incomplete if they were omitted from the reporting entity. These criteria are discussed in more detail in Note 1 to the general purpose financial statements.

Using these criteria, management has determined that the District has no component units, nor is it a component unit of any other organization.

DISTRICT FUNDS

The District's accounts are organized as separate accounting entities called funds. District resources are allocated to and accounted for in individual funds as required by the State of Illinois. Each fund has specific functions based upon the purposes for which the District's resources are to be expended. This allows for a more controlled process of spending activities. The following describes the fund types implemented in School District 39:

- 1) <u>General Fund</u> accounts for the revenues and expenditures that are used in providing the educational program for the children of the District.
- 2) <u>Special Revenue Funds</u> account for specific revenue sources that are legally restricted to expenditures for specified purposes (e.g., Operations and Maintenance, Transportation, Working Cash and Municipal Retirement/Social Security).
- 3) <u>Debt Service Fund</u> accounts for the accumulation of resource for, and the payment of, general long-term debt principal, interest, and related costs. All bond issues are maintained through the Bond and Interest Fund.
- 4) <u>Capital Projects Fund</u> accounts for financial resources to be used for the acquisition or construction of major capital facilities.
- 5) <u>Agency Fund</u> accounts for the assets held by the District for student organizations.

ACCOUNTING SYSTEMS AND BUDGETARY CONTROL

The financial statements have been prepared in accordance with generally accepted accounting principles that are appropriate to local governmental units of this type. The presentation allows the reader to obtain an overview of the District's financial operations by viewing the basic financial statements in the front section of the report. All of the figures used in the following discussion were obtained or derived from these financial statements, attached herewith.

In developing and evaluating the District's accounting system, consideration is given to the adequacy of the internal accounting controls. Such controls are designed to provide reasonable, but not absolute, assurance for the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. We believe that our internal accounting controls adequately safeguard District assets and provide reasonable assurance of proper recording of financial data. Budgetary control is maintained at line item levels and built up into program and cost centers before being combined to create fund totals. All actual activity compared to budget is reported to the District's administrative team and to the Board of Education on a monthly basis. The monthly report compares each line item account balance to the annual budget with accumulation to the cost center, fund, and total district levels. Full disclosures are made if extraordinary variances appear during the year.

GENERAL GOVERNMENTAL ACCOUNTING FUNCTIONS

The District has three sources of revenue: local, state, and federal. By far the largest source, and the source the District is most dependent on, is the local source.

Revenues for general District functions of all Governmental Fund Types totaled \$63,126,580, a decrease of 1.7% when compared to FY 2012.

Revenue Sources		2013 Amount (\$000)	Percent of Total	(I fr	Increase Decrease) From 2012 (\$000)	Percentage Increase (Decrease) from 2012
	•	(ψοσο)	10111		(ψοσο)	110111 2012
Local Sources						
Property Taxes	\$	45,917	72.7%	\$	(2,774)	-5.7%
Personal Property Replacement Taxes		459	0.7%		26	6.0%
Earnings on Investments		56	0.1%		43	330.8%
Other		3,657	5.8%		(54)	-1.5%
Total Local Sources		50,089	79.3%		(2,759)	-5.2%
State and Federal Sources		13,038	20.7%		1,675	14.7%
Total Revenue	\$	63,127	100.0%	\$	(1,084)	-1.7%

Total Local Revenues posted a net decrease of 5.2% in Fiscal Year 2013 when compared to the preceding fiscal year. Despite \$36,823 in uncollected State payments, revenue received from State and Federal Sources increased by 14.7% primarily due to the receipt of State payments for FY12 received in FY13. The on-behalf payments made by the State to the Teachers' Retirement System (TRS) increased by \$1,211,139 or 18.3%.

Allocations of the 2012 property tax levy and the preceding two levy years are as follows (per \$100 of assessed value):

	Levy Year				
Fund Type	2012	2011	2010		
General (Educational)	2.3164	2.0841	1.8402		
Operations & Maintenance	0.2894	0.2600	0.2062		
Transportation	0.0265	0.0129	0.0114		
Municipal Retirement	0.0567	0.0509	0.0449		
Social Security	0.0567	0.0509	0.0449		
Working Cash	0.0065	0.0058	0.0051		
Debt Service	0.0861	0.0797	0.0707		
Tort Immunity	0.0671	0.0603	0.0383		
Life Safety	0.0000	0.0000	0.0383		
Special Education	0.0165	0.0148	0.0131		
Total Tax Rate	2.9219	2.6194	2.3131		
Collection/Levy	50.8%	99.2%	98.2%		

The expenditures of the major functions of all governmental fund types increased by \$5,389,415 from the prior fiscal year. This represents a percentage increase of 9.3%. Variances in levels of expenditures for major functions of the District over the preceding year are shown in the following tabulation:

Expenditures	2013 Amount (\$000)	Percent of Total	(I	ncrease Decrease) om 2012 (\$000)	Percentage Increase (Decrease) from 2012
<u>Function</u>					
Instruction	\$ 36,182	57.6%	\$	2,365	7.0%
Support Services	21,966	35.0%		3,245	17.3%
Debt Service	2,370	3.8%		139	6.2%
Capital Outlay	773	1.2%		(522)	-40.3%
Non-programmed Charges	 1,485	2.4%		162	12.2%
Total Expenditures	\$ 62,776	100.0%	\$	5,389	9.4%

Although the overall increase is 9.4%, there is a notable decrease of 40.3% in capital outlay. Fiscal Year 2012 was year three of the Life Safety project, which completed the outstanding Life Safety list.

Under separate collective bargaining agreements with the teachers' and support staff unions, actual labor costs increased by 3.69% in Fiscal Year 2013. Salaries account for 53.4% of total operating expenditures and 76.5% of General (Educational) Fund expenditures.

CAPITAL ASSETS

The capital assets of the District are those assets used in the performance of general governmental functions. As of June 30, 2013, the District's capital assets, net of accumulated depreciation, amounted to \$36.7 million. This amount represents the actual and estimated original cost of the assets and is considerably less than their present replacement value.

Depreciation of capital assets is shown in order to satisfy the compliance with Governmental Accounting Standards Board Statement Number 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments but is generally not recognized in the District's accounting system. The District utilizes the assistance of an outside appraisal service for the appraisal, control and inventory of fixed assets. Although annual adjustments to inventory were made, a physical inventory had not been conducted since 2003. The appraisal service conducted a thorough physical inventory of the District's assets and equipment during the 2009-2010 Fiscal Year. This resulted in a reduction in value of capital assets in the amount of \$1,789,788. Annual updates to the inventory report will continue until the next physical inventory occurs.

Annual appraisals are used for the updating of replacement values for insurance purposes with the District providing historical cost information. The District participates in a property casualty insurance cooperative pool comprised of more than 60 school district members. The cooperative maintains a \$250,000 self-insured retention to insure losses up to \$1,000,000. Beyond that limit, outside third party specific and aggregate coverage is purchased to protect the District from severe financial losses.

ECONOMIC OUTLOOK

The District's mature tax base is characterized by resident socioeconomic levels that are among the highest in the state and nation. In addition its strong financial operations are supported by ample reserves and manageable debt burden.

The District's fully developed and affluent tax base will continue to experience steady growth for the foreseeable future based on its desirable location on the North Shore of Lake Michigan. The District continues to maintain a solid tax base and still experience some growth, mostly through residential teardowns and reassessment. Resident socioeconomic indicators greatly exceed state and national levels.

The District maintains strong financial operations by implementing prudent fiscal policies, conservative management and maintaining ample reserves. The District ended FY 2013 with an Educational Fund balance of \$24.2 million, or an adequate 45.7% of Educational Fund revenues. Adding to the district's financial flexibility is a FY 2013 Working Cash Fund balance of \$0.5 million, contributing to a combined operating fund balance of 32.9 million. The District receives the majority of its operating revenues from property taxes (72.7% of FY 2013 revenues) followed by state and federal aid (20.6%). The District's goal is to sustain an operating fund balance (Educational, O&M, Transportation, IMRF & Social Security, Tort Immunity & Judgment and Working Cash) at a level equivalent to 30% of annual operating expenditures. In FY13, the level was 55.2%.

The Illinois General Assembly has imposed property tax legislation on all Cook County school districts. The legislation is designed to limit increases in property tax extensions. The limitation slows the growth of property tax revenues to school districts when property values and assessments are increasing faster than the rate of inflation. The legislation limits the levy increase to the lesser of five percent or the increase in the consumer price index (CPI) for the year preceding the levy year. This combined with the use of prior year equalized assessed valuation (EAV) generate property tax receipts. The use of the CPI and prior year EAV variables in property tax calculations is intended to "restrict" the amount of increase in a school district's levy request.

The administration, in collaboration with teachers and the Board of Education, will continue to provide an exemplary educational experience for all students in the District 39 community. With that being said, district administration continues to analyze long-range forecast financial projections, which are used in prudent fiscal planning sessions with members of the Board of Education.

MAJOR INITIATIVES

Improvements to District Facilities

The district had several capital improvement and life safety projects during the 2012-2013 school year. The following summarizes the projects by school:

Romona Elementary School

- Auditorium Renovation
- HVAC Renovations

Central Elementary School

HVAC Renovations

Wilmette Junior High School

• Science addition/renovation work

INDEPENDENT AUDIT

The School Code of Illinois and the District's adopted policy require an annual audit of the books of accounts, financial records and transactions of all funds of the District. The audit is performed by independent certified public accountants selected by the District's Board of Education. The independent auditors' opinion has been included in the Financial Section of this report.

ACKNOWLEDGEMENT

It is our belief that this Comprehensive Annual Financial Report will provide the District's management, outside investors, and interested local citizens with a most meaningful financial condition as of June 30, 2013.

We extend our appreciation to the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible, progressive manner.

Respectfully Submitted,		

Dr. Raymond E. Lechner

Independent Auditor's Report

Board of Education Wilmette Public Schools District 39 Wilmette, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wilmette Public Schools District 39, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Wilmette Public Schools District 39's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Wilmette Public Schools District 39's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Wilmette Public Schools District 39, as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Wilmette Public Schools District 39's basic financial statements. The combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 2, 2013 on our consideration of Wilmette Public Schools District 39's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Wilmette Public Schools District 39's internal control over financial reporting and compliance.

Klein Hall CPAs Aurora, Illinois

Slein Hall CPAS

October 2, 2013

The discussion and analysis of Wilmette Public Schools District 39's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2013. The management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. All amounts, unless otherwise indicated, are expressed in millions of dollars. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

Financial Highlights

- For the twelfth year in a row, the District will retain the ISBE's highest financial rating. Financial recognition, for FY13 and its overall weighted score remained 4.00 on a 4-point scale.
- General revenues accounted for \$47.7 or 75.3% of total revenue. General revenues consisted of property tax revenues of \$45.9, other local revenues of \$0.7 and Federal and State aid not restricted to specific purposes of \$1.1.
- The District had \$60.5 in expenses related to government activities, of which, \$15.6 were offset by program specific charges, grants and contributions.
- The District committed \$4.9 for construction projects in the coming year.
- The District continued to make security enhancements and HVAC renovations throughout the District during the year.
- The District completed an addition to Wilmette Jr. High School for a science lab and a renovation of the theater at Romona Elementary School.
- The District's long-term debt margin remains a healthy 81.2% for FY13 with an accessible debt capacity of \$91.7.
- The District permanently transferred \$0.8 from the Operations and Maintenance Account to the Debt Service Fund to cover debt principal and interest payments.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). With the exception of the District's summer school enrichment program, the District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, operation and maintenance of facilities and transportation services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund (Educational, Operations and Maintenance, Working Cash and Tort Immunity Accounts) and Debt Service Funds, which are considered to be major funds. The Transportation, Municipal Retirement and Fire Prevention and Safety Fund are considered non-major funds.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

Fiduciary funds are used to account for resources held for the benefit of parties outside the school district. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that of government-wide financial statements.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its non-certified employees and other post employment benefits.

Government-Wide Financial Analysis

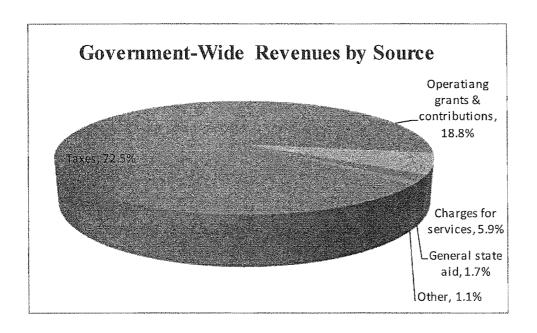

Net Position: The District's total assets are \$100.7, total liabilities are \$54.3 and the total net position for the year ending June 30, 2013 are \$46.4. (See Table 1)

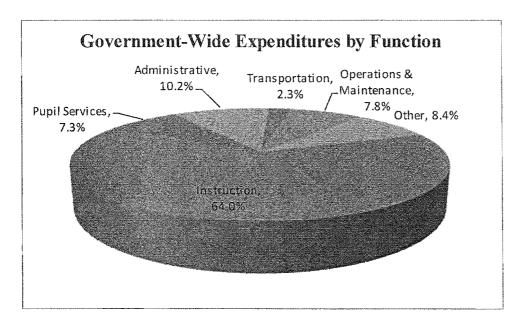

Table 1 Condensed Statement of Net Position					
(in millions of dollars)		THE RESIDENCE OF THE PROPERTY			
	2013		2012		
Assets:	****				
Current assets	\$	63.7	\$	61.4

Transportation		1.4		1.1
Operations & maintenance		4.7		4.2
Other		5.1		5.0
Total expenses		60.5		57.3
Increase in net position	\$	2.8	\$	6.9

Property taxes accounted for most of the District's revenue, contributing about 72.5 cents of every dollar raised. The remainder comes from restricted and unrestricted state and federal, fees charged for services and miscellaneous sources. The total cost of all programs and services was \$60.5. The District's expenses are predominantly (73.6%) related to instruction, pupil services and transportation of students.

Financial Analysis of the District's Funds

The statement of net position includes capital assets and long-term liabilities and therefore presents a financial picture that is different from the traditional modified accrual statements. As the District completed the year, the ending fund balance in all funds was \$35.3, a \$0.7 increase for the year.

General (Educational) Fund

FY13 Educational Fund revenue exceeded expenditures by \$3.8. Local revenues decreased by \$2.9 or 6.7% compared to last year. State educational aid increased by 14.8% and federal aid increased 3.4% over 2012. Overall expenditures contributed to the enhancements of the instructional programs, negotiated certified staff salary increased, rising costs in health insurance premiums, and technology improvements. General (Educational) Fund expenditures increased 6.7% resulting in a year-end fund balance of \$24.2.

Tort Immunity Fund

In FY13, the Tort Immunity Fund revenues were \$1.1 and expenditures were \$0.7 resulting in a year-end fund balance of \$0.4.

Operations and Maintenance Fund

In FY13, the Operations and Maintenance Fund revenues were \$4.6 and expenditures were \$6.9, resulting to a year-end fund balance of \$6.7, after taking into account other financing uses of \$0.8.

Transportation Fund

Overall, the FY13 Transportation Fund expenditures exceeded revenues by \$0.2. Revenue increased by \$21.4% primarily due to property tax receipts. Expenditures increased by 28.0% primarily due to an increase in purchased services in FY13.

Illinois Municipal Retirement Fund

The Municipal Retirement/Social Security Fund revenues exceeded expenditures by \$0.3 resulting in a year end fund balance of \$0.7.

Working Cash Fund

The Working Cash Fund received \$0.1 in tax levy proceeds and interest income. The District uses Working Cash Funds to help support operations through interfund transfers and loans when necessary. The ending fund balance for FY13 was \$0.5.

Debt Service Fund

The Debt Service Fund had an excess of expenditures over revenues and other financing sources of \$0.2 and ended with a balance of \$2.2.

Fire Prevention and Life Safety Fund

In FY11, the issuance of \$5.1 in long-term debt obligations provided the Fire Prevention and Life Safety Fund the necessary resources to complete designated Life Safety Projects identified through the 10-year Life Safety Survey. The ending fund balance at FY13 was \$0.2.

Capital Asset and Debt Administration

Capital assets

The District's capital assets consist of a total investment of \$78.2 (\$36.7 net of accumulated depreciation). Total depreciation expense for the year was \$3.1. More detailed information about capital assets can be found in Note 5 to the basic financial statements.

Table 3 Capital Assets (net of deprecia (in millions of dollars)	ation)		VANIAN - ELEKALOOMOON SANA	
		2013	2	012

ISBE Financial Profile

The Illinois State Board of Education evaluated the financial integrity of all public school districts based on five standard indicators: operational balance-to-revenue ratio, operational expenditure-to-revenue ratio, operational cash-on-hand, short term debt capacity and long term debt capacity. These scores are weighted and summed to yield a total profile score.

Projected District 39 FY 2013 ISBE Financial Profile Calculations					
Indicator	Value	Rating	Weighting	Score	Possible
Fund Balance to revenue	62.3%	4	0.35	1.40	1.40
Expenses to revenue	97.2%	4	0.35	1.40	1.40
Cash on hand	267.32 days	4	0.10	0.40	0.40
Short term debt remaining	100.0%	4	0.10	0.40	0.40
Long term debt remaining	79.3%	4	0.10	0.40	0.40
			Total	4.00	4.00

The District's total profile score last year was 4.00 out of a possible 4.00. The projected score for FY13 is 4.00 out of a possible 4.00. Based on this state formula, the District will continue to be placed in the ISBE's highest category, "Recognition", for financial integrity. In the previous 9 years, the District has scored 4.00 in all but FY04, FY06, FY08, FY09, FY10 and FY11 when it received a 3.55.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that may significantly affect its financial health in the future:

- Since 1995, the District has been subject to tax cap legislation. This legislation severely limits the ability of the District to increase revenues proportionate to the increase in expenditures. The increase in expenditures are due to such factors as the expansion of instructional programming to meet the needs of the students, rising health care costs, contributed implementation of technology and facility needs. Balancing future budgets will continue to be a difficult challenge.
- The District's certified staff negotiated a new contract through fiscal year 2016.
- The District's support staff negotiated a new contract that took effect in fiscal year 2013. The four-year contract will directly influence expenditure patterns through fiscal year 2016.
- Refunds from property tax appeals continue to have a negative effect on net local property tax revenue receipts.
- For fiscal year 2013, the District is closely watching the outcome of the State of Illinois' pension reform. Although no action has yet been taken, the State is deciding whether to shift some or all of the responsibility for funding of teachers' pensions to the local school districts. The State is expected to contribute approximately \$7 million to pensions for District 39 teachers for FY13. The State's decision could significantly change the District's financial position.

Requests for Information

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Business Office:

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2013

Net change in fund balances - total governmental funds

709,332

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$1,500 are capitalized and the cost is allocated over their estimated lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlays	\$ 4,187,458	
Depreciation expense	(3,104,227)	1,083,231

The proceeds from the sale of capital assets are reported as revenue in the governmental funds. However, the cost of the capital assets are removed from the capital asset account in the statement of net position and offset against the proceeds from the sale of capital assets resulting in a gain on the sale of capital assets in the statement of activities.

Cost of capital assets disposed, less accumulated depreciation

(215,756)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These activities consist of:

Increase in net pension obligation - IMRF	\$ (41,527)	
Increase in other postemployment benefits	(279,258)	(320,785)

The governmental funds record bond and loan proceeds as other financing sources, while repayment of bond and loan principal is reported as an expenditure. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences in the treatment of bonds and loans and related items is as follows:

Repayment of bond and loan principal	\$ 1,505,000	
Bond premium amortization	71,486	
Bond discount amortization	(3,484)	
Deferred refunding amortization	(24,125)	
Deferred charges amortization	(47,651) 1,3	501,226

Change in net position of governmental activities

Notes To Financial Statements June 30, 2013

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Wilmette Public School District 39 (the District) operates as a public school system governed by a seven member board. The District is organized under the School Code of the State of Illinois, as amended. The accounting policies of the District conform to accounting principles generally accepted in the United States of America, as applicable to local governmental units of this type. The following is a summary of the more significant accounting policies of the District:

a. The Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include or exclude a potential component unit in reporting entity is made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The definition of a component unit is a legally separate organization for which the District is financially accountable and other organizations for which nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The District is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the District. The District also may be financially accountable if an organization is fiscally dependent on the District, regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government or (3) a jointly appointed board. There are no component units, as defined by GASB, which are included in the District's reporting entity. Even though there are local government agencies within the geographic area served by the District, such as the municipality, library and park district, these agencies have been excluded from the report because they are legally separate and the District is not financially accountable for them.

The District is not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

Joint Ventures - The District is also a member of the following organization:

- Wilmette County Special Education Agreement (see Note 13)

b. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The following summarizes the fund types used by the District:

Notes To Financial Statements (continued)
June 30, 2013

GASB statement No. 54 refined the definitions of various governmental funds. These updated definitions are incorporated into the following fund descriptions.

Governmental funds include the following fund types:

General Fund – The General Fund, which consists of the legally mandated Educational Account, Operations and Maintenance Account, Tort Immunity Account and Working Cash Account, is used to account for the revenues and expenditures, which are used in providing education in the District. It is used to account for all financial resources except those required to be accounted for in other funds.

Educational Account – These accounts are used for most of the instructional and administrative aspects of the District's operations, as well as providing school lunch services to students. The revenue consists primarily of local property taxes, state government aid and student registration fees and lunch receipts from the District food service program.

Operations and Maintenance Account — These accounts are used for expenditures made for operation, repair and maintenance of District property. Revenue consists primarily of local property taxes.

Tort Immunity Account – This fund accounts for revenues and expenditures related to tort immunity. Revenue is primarily derived from local property taxes.

Working Cash Account – This fund accounts for financial resources held by the District to be used as loans for working capital requirements to any other fund for which taxes are levied. The Working Cash Account was established and has been used to respond to fluctuations in cash flow resulting from unpredictable property tax collections. The earnings of the fund are allowed to be transferred to another fund under the Illinois Compiled Statutes. The principal of the fund, accumulated from bond issues, can be used as a source from which the District borrows money to support temporary deficiencies in other funds, or may be partially or fully transferred to the General Fund's Educational Account, upon Board approval.

Special Revenue Funds – Special Revenue Funds account for the proceeds of specific revenue sources (other than Debt Service and Capital Projects Funds) that are legally restricted to expenditures for specified purposes. The District's Special Revenue Funds are the Transportation and Municipal Retirement/Social Security Funds.

Transportation Fund – This fund accounts for the revenue and expenditures relating to student transportation, both to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

Notes To Financial Statements (continued)
June 30, 2013

Municipal Retirement/Social Security Fund — This fund accounts for the District's portion of the pension contributions to the Illinois Municipal Retirement Fund for noncertified employees and social security contributions for applicable certified and noncertified employees. Revenue to finance the contributions is derived primarily from local property taxes.

Debt Service Funds – Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Debt Service Fund – The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. Since there are no legal requirements on bond indentures, which mandate that a separate fund be established for each bond issue, the District maintains one Debt Service Fund for all bond issues.

Capital Projects Funds — Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Fire Prevention and Safety Fund — The Fire Prevention and Safety Fund accounts for financial resources to be used for acquisitions and construction projects, which qualify as Fire Prevention and Safety expenditures.

Fiduciary Fund Type

Agency Funds – The Agency Funds (Activity Funds) account for assets held by the District in trustee capacity or as an agent for student organizations. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide financial statements.

The District reports the following funds as major governmental funds:

General Fund Debt Service Fund

Private-sector standards of accounting, and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. When both restricted and unrestricted

Notes To Financial Statements (continued)
June 30, 2013

resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District has adopted a policy consistent with GASB Statement No. 34 to net the interfund receivables and payables for combined totals used to determine the major funds. Consequently, the interfund loan balances, which net to zero, are not utilized to determine major funds.

c. Basis of Presentation – Governmental Funds Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. All of the District's operating activities are considered "governmental activities," that is, activities that are normally supported by taxes and intergovernmental revenue. The District has no operating activities that would be considered "business activities".

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

d. Net Position

Government-Wide Statements

Net position is classified and displayed in three components:

- 1. Net investment in capital assets. Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets and adjusted for any deferred inflows and outflows of resources attributable to capital assets and related debt.
- 2. Restricted. Consists of restricted assets reduced by liabilities and deferred inflows or resources related to those assets, with restriction constraints placed on the use either by external groups, such as creditors, grantors, contributors, or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.

Notes To Financial Statements (continued)
June 30, 2013

3. Unrestricted. Net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

It is the District's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

e. Basis of Accounting/Measurement Focus

The government-wide financial statements and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Fiduciary fund reporting focuses on net position and changes in net position. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities in the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Interest associated with the current fiscal period is considered to be susceptible to accrual and so has been recognized as a revenue of the current period. All other revenue items are considered to be measurable and available only when the District receives the cash.

Private-sector standards of accounting, and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

f. Deposits and Investments

State statues authorize the District to invest in obligations of the U.S. Treasury, certain highly rated commercial paper, corporate bonds, repurchase agreements, and State Treasurer's Investment Pool.

Notes To Financial Statements (continued)
June 30, 2013

Investments are stated at fair value, which is the market value as determined by published reports of such values.

g. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". These amounts are eliminated in the governmental activities column in the statement of net position. Receivables are expected to be collected within one year.

h. Revenues – Exchange and nonexchange transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements that specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest, grants, entitlements and student fees.

i. Deferred Revenue

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

Notes To Financial Statements (continued)
June 30, 2013

j. Property Tax Revenues

The District must file its tax levy ordinance by the last Tuesday in December of each year. The District's 2012 levy ordinance was originally approved during the December 17, 2012 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year. The District's annual property tax levy is subject to two statutory limitations: Individual fund rate ceilings and the Property Tax Extension Limitation Act (PTELA).

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation.

Property taxes are collected by the County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two equal installments; the first due on March 1 and the second due on August 1 for property located in Cook County. Property taxes are normally collected by the District within 60 days of the respective installments dates. Due to the allocation method used, individual fund rates for Cook County may exceed the statutory limits; however, the combined extension is limited to the statutory rate limits extended on the combined equalized assessed valuation.

The 2012 property tax levy is recognized as a receivable in fiscal year 2013. The District considers that the first installment of the 2012 levy is to be used to finance operations in fiscal 2013. This District has determined that the second installment of the 2012 levy is to be used to finance operations in fiscal year 2014 and has deferred the corresponding receivable.

k. Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement Fund, with the balance allocated to the remaining funds at the discretion of the District.

I. Prepaid Items

Certain payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid assets under the consumption method.

m. Capital Assets

Capital assets, which include land, buildings, buildings improvements, vehicles, equipment, and construction in progress, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$1,500 and an estimated

Notes To Financial Statements (continued)
June 30, 2013

useful life of one year or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and building improvements	20-75 years
Land improvements	20-75 years
Furniture, equipment and vehicles	5-20 years

n. Compensated Absences

Employees receive fifteen sick days annually. The certified staff could accumulate up to 376 days and the non-certified staff could accumulate up to 300 days. Sick leave is not paid out upon termination.

Non-certified employees receive two to four weeks vacation time each fiscal year depending upon years of service. As of June 30, 2013 any vacation time earned has not been accrued since amount is immaterial. Certified employees who work less than 12 calendar months per year do not earn vacation days.

o. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the governmental fund financial statements, the full amounts of discounts, as well as bond issuance costs, are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes To Financial Statements (continued)
June 30, 2013

p. Reserved Fund Balances

In the governmental funds financial statements, the District reserves those portions of fund balances which are legally segregated for a specific purpose or do not represent amounts available for other appropriations.

q. Comparative Data

The financial statements include summarized prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2012, from which such information was derived.

r. Eliminations and Reclassifications

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

s. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Notes To Financial Statements (continued)
June 30, 2013

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Excess of Expenditures over Budget

For the year ended June 30, 2013, expenditures exceeded budget in the following funds:

	 Budget		Actual	Excess		
Fire Prevention and Safety Fund	\$ 768,000	\$	788,127	\$	20,127	

The expenditure variances were sufficiently absorbed by surpluses that existed at the beginning of the fiscal year and were approved by the Board of Education. Under the State Budget Act expenditures may exceed the budget if additional resources are available to finance such expenditures.

NOTE 3. CASH AND INVESTMENTS

Deposits and Custodial Credit Risk

Investments held by the District which are short-term highly liquid investments having a remaining maturity of one year or less at the time of purchase are reported by the District at amortized cost. All other investments are reported at fair value. Gains or losses on the sale of investments are recognized upon realization. The District has adopted a formal written investment and cash management policy. The institutions in which investments are made must be approved by the Board of Education.

At June 30, 2013 the carrying amount of the District's deposits, which include both cash and certificates of deposit (excluding cash on hand of \$255), totaled \$36,490,631 and the bank balances totaled \$36,637,343. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. These amounts were entirely insured or collateralized as of June 30, 2013.

As of June 30, 2013, the District has the following investments and maturities:

			ľ	Maturities		Applicable	
Investment Type		Fair value		(in years) .ess than 1	Percent of Portfolio	Agency Rating	
Other Investments:							
Illinois School District Liquid Asset Fund	\$	4,362,181	\$	4,362,181	100%	AAAm	
Total Investments	\$	4,362,181	\$	4,362,181	100%		

Notes To Financial Statements (continued)
June 30, 2013

The Illinois School District Liquid Asset Fund and the Illinois Investors Fund (IIIT) are not-for-profit investment trusts. The values of the positions in these investment trusts are the same as the value of the pool shares.

Interest Rate Risk. The District's investment policy seeks to ensure the preservation of capital in the District's overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However the policy requires the District investment portfolio to be sufficiently liquid to enable the District to meet all operating requirements as they come due. A portion of the portfolio is required to be invested in readily available funds to ensure appropriate liquidity.

Credit Risk. The District's investments are rated, as shown above, by the applicable rating agency.

Foreign Currency Risk. The District held no foreign investments during the fiscal year.

Concentration of Credit Risk. The District places no limit on the amount of the District may invest any one issuer. More than 5 percent of the District's investments are concentrated in specific individual investments. The above table indicates the percentage of each investment to the total investments of the District.

Custodial Credit Risk. With respect to deposits, custodial credit risk is the risk that, in the event of bank failure the District's deposits may not be returned to them. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be insured by collateral.

With respect to investments, custodial credit risk is the risk that, in the event of failure of the counterparty, the government will not be able to recover the value of its investment or collateral securities that are in possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring all investments be secured by private insurance or collateral.

Separate cash and investment accounts are not maintained for all District funds; instead, the individual funds maintain their invested and uninvested balances in the common account balance attributable to each participating fund.

Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts results from expenditures that have been approved by the Board of Education.

Notes To Financial Statements (continued)
June 30, 2013

NOTE 4. INTERFUND TRANSFERS

The following interfund transfers were made during the year ended June 30, 2013:

Transfer From_	Transfer To	 Amount
General Fund - Operations and Maintenance Account	Debt Service Fund	\$ 800,700

Transfers to the Debt Service Fund were made to provide funds for debt service payments.

NOTE 5. CAPITAL ASSETS

A summary of changes in capital assets follows:

		Balance					Balance
	June 30, 2012 Additions		Deletions		Ju	me 30, 2013	
Capital assets, not being depreciated:							
Land	\$	610,765	\$ -	\$	-	\$	610,765
Construction in progress		-	2,431,896		-		2,431,896
Total capital assets not being depreciated		610,765	2,431,896		-		3,042,661
Capital Assets, being depreciated:

Notes To Financial Statements (continued)
June 30, 2013

General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

	Interest Original		Face		Carrying
Purpose	Rates	Indebtedness		Amount	Amount
Series Refunding and Working Cash dated March 1, 2004 are due in annual installments through June 1, 2019	3.55%-3.75%	\$ 2,370,000	\$	2,370,000	\$ 2,015,000
Series Refunding Life Safety dated July 1, 2007 are due in annual installments through June 1, 2022	4.00%-4.20%	3,625,000		3,625,000	3,575,000
Series 2010 General Obligation Limited Tax School Bonds dated July 7, 2010 are due in annual installments through January 15, 2026	2.00%-4.13%	8,505,000		8,505,000	7,970,000
Series General Obligation Limited Tax Refunding dated June 14, 2012 are due in annual installments through December					
15, 2016	1.00%	1,050,000		1,050,000	805,000
	Total	\$15,550,000	\$	15,550,000	\$ 14,365,000

Annual debt service requirements to maturity for general obligation bonds are as follows for government type activities:

Fiscal Year Ending June 30,	 Principal	 Interest	 Total
2014	\$ 825,000	\$ 514,368	\$ 1,339,368
2015	855,000	500,493	1,355,493
2016	890,000	485,918	1,375,918
2017	940,000	443,116	1,383,116
2018	1,010,000	408,381	1,418,381
2019-2023	6,030,000	1,422,876	7,452,876
2024-2026	 3,815,000	287,040	4,102,040
	\$ 14,365,000	\$ 4,062,192	\$ 18,427,192

Defeased General Obligation Bonds Outstanding

In fiscal year 2012, the District issued \$1,050,000 in General Obligation Limited Tax Refunding Bonds to refund the Series Refunding Life Safety Bond dated February 21, 2001. Proceeds of \$1,032,281 were issued to purchase U.S. Government securities. These securities were deposited in

Notes To Financial Statements (continued)
June 30, 2013

an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded debt. As a result this bond is considered defeased and the liability has been removed from the long-term debt. There was no economic gain recognized. At June 30, 2013, \$3,290,000 of bonds outstanding are considered defeased.

Debt Margin

The District is subject to the <u>Illinois Compiled Statues</u> which limits the amount of bond indebtedness, including the certificate of participation, to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2013, the statutory debt limit for the District was \$112,865,482 providing a debt margin of \$91,651,197 after taking into account amounts available in the Debt Service Fund.

Certificates of Participation

In fiscal year 2012, the District issued \$7,515,000 in Debt Certificates with an average interest rate of 3.41%. The net proceeds of \$8,176,559 (after premium and payment of underwriting fees, insurance and other issuance costs) were deposited into the Operations and Maintenance Account and will be used for various projects. The debt certificates will be repaid from the Debt Service Fund.

In fiscal year 2008, the District issued \$4,885,000 in Debt Certificates with an average interest rate of 4.05%. The net proceeds of \$4,879,118 (after payment of underwriting fees, insurance, and other issuance costs) were used for various projects for fire protection and safety. The debt certificates will be repaid from the Debt Service Fund.

Annual debt service requirements to maturity for debt certificates are as follows:

Fiscal Year Ending June 30,	Principal		Interest	Total
2014	\$ 755,000	\$	303,292	\$ 1,058,292
2015	1,325,000		272,692	1,597,692
2016	565,000		248,942	813,942
2017	550,000		232,217	782,217
2018	610,000		212,742	822,742
2019-2023	3,435,000		688,610	4,123,610
2024-2026	1,805,000		113,788	1,918,788
Total	\$ 9,045,000	\$_	2,072,283	\$ 11,117,283

NOTE 7. RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect from such risks, the District participates in the entity risk pools (see Notes 10 and 11). SSCIP for its general liability and property coverage and School Employees Loss Fund (SELF) for workers'

Notes To Financial Statements (continued)
June 30, 2013

compensation claims. The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that each will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pools. There have been no significant reductions in insurance coverage from coverage in any of the past three fiscal years.

The District continues to carry commercial insurance for all other risks of loss, including torts and professional liability insurance. Premiums have been recorded as expenditures in the appropriate funds. There have been no significant reductions in insurance coverage from coverage in the prior years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 8. RETIREMENT FUND COMMITMENTS

Illinois Teachers' Retirement System

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The state of Illinois maintains primary responsibility for the funding of the plan, but contributions from participating employers and members are also required. The TRS Board of Trustees is responsible for the System's administration.

TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher certification is required. The active member contribution rate for the year ended June 30, 2013, was 9.4 percent of creditable earnings. The same contribution rate applies to members whose first contributing service is on or after January 1, 2011, the effective date of the benefit changes contained in Public Act 96-0889. These contributions, which may be paid on behalf of employees by the employer, are submitted to TRS by the employer. The active member contribution rate was also 9.4 percent for the years ended June 30, 2012 and 2011.

The State of Illinois makes contributions directly to TRS on behalf of the District's TRS-covered employees. The District's total payroll reported to TRS for the year ended June 30, 2013 was \$27,101,012.

On-behalf contributions. The state of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2013, state of Illinois contributions were based on 28.05 percent of creditable earnings not paid from federal funds and the District recognized revenue and expenditures of \$7,575,495 in pension contributions that the state of Illinois paid directly to TRS. For the years ended June 30, 2012, and June 30, 2011, the State of Illinois contribution rates as percentages of creditable earnings not paid from federal funds were 24.91 percent (\$6,387,397) and 23.10 percent (\$5,891,646), respectively.

Notes To Financial Statements (continued)
June 30, 2013

The District makes other types of employer contributions directly to TRS.

2.2 Formula Contributions. Employers contribute 0.58 percent of creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2013 were \$157,186. Contributions for the years ending June 30, 2012, and June 30, 2011, were \$149,144 and \$148,966, respectively.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the district, there is a statutory requirement for the district to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that was first effective in the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS.

For the year ended June 30, 2013, the employer pension contribution was 28.05 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2012 and 2011 the employer contribution was 24.91 and 23.10 percent of salaries paid from federal and special trust funds, respectively. For the year ended June 30, 2013, salaries totaling \$93,899 were paid from federal and special trust funds that required employer contributions of \$26,339. For the years ended June 30, 2012 and June 30, 2011, required district contributions were \$18,094 and \$41,313, respectively.

Early Retirement Option (ERO). The District is also required to make one-time employer contributions to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the age and salary of the member.

The maximum employer contribution under the current program is 117.5 percent and applies when the member is age 55 at retirement.

For the years ended June 30, 2013, June 30, 2012 and June 30, 2011 the District made no payments to TRS for employer contributions under the ERO program.

Salary increases over 6 percent and excess sick leave.

If an employer grants salary increases over 6 percent and those salaries are used to calculate a retiree's final average salary, the employer makes a contribution to TRS. The contribution will cover the difference in actuarial cost of the benefit based on actual salary increases and the benefit based on salary increases of up to 6 percent.

For the year ended June 30, 2013, the District paid \$8,195 to TRS for employer contributions due on salary increases in excess of 6 percent. For the years ended June 30, 2012 and 2011, the District paid \$16,486 and \$48,391 in employer contributions due on salary increases in excess of 6 percent, respectively.

Notes To Financial Statements (continued)
June 30, 2013

If an employer grants sick leave days in excess of the normal annual allotment and those days are used as TRS service credit, the District makes a contribution to TRS. The contribution is based on the number of excess sick leave days used as service credit, the highest salary used to calculate final average salary, and the TRS total normal cost rate (17.63 percent of salary during the year ended June 30, 2013).

For the year ended June 30, 2013, the District paid \$5,233 to TRS for sick leave days granted in the excess of the normal annual allotment. For the years ended June 30, 2012 and 2011, the District paid \$5,233 and \$0 in employer contributions granted for sick leave days, respectively.

Further information on TRS

TRS financial information, an explanation of TRS' benefits, and descriptions of member, employer and state funding requirements can be found in the TRS *Comprehensive Annual Financial Report* for the year ended June 30, 2012. The report for the year ended June 30, 2013, is expected to be available in late 2013. The reports may be obtained by writing to the Teachers' Retirement System of the State of Illinois, P.O. Box 19253, 2815 West Washington Street, Springfield, IL 62794-9253. The most current report is also available on the TRS Web site at http://trs.illinois.gov.

Teacher Health Insurance Security (THIS)

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants may participate in the state administered participating provider option plan or choose from several managed care options.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to THIS Fund.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On Behalf Contributions to THIS Fund. The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 0.92 percent of pay during the year ended June 30, 2013. State of Illinois contributions were \$249,329, and the district recognized

Notes To Financial Statements (continued)
June 30, 2013

revenue and expenditures of this amount during the year.

State contributions intended to match active member contributions during the years ended June 30, 2012 and June 30, 2011 were 0.88 percent of pay, both years. State contributions on behalf of district employees were \$226,288, and \$226,017 respectively.

Employer contributions to THIS Fund. The District also makes contributions to THIS Fund. The District THIS Fund contribution was 0.69 percent during the year ended June 30, 2013 and , and 0.66 percent during the years ended June 30, 2012 and June 30, 2011. For the year ended June 30, 2013, the District paid \$186,997 to the THIS Fund. For the years ended June 30, 2012 and June 30, 2011, the District paid \$169,716 and \$169,513 to the THIS Fund, respectively, which was 100 percent of the required contribution.

Further Information on THIS Fund. The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp. The 2013 report is listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services."

Illinois Municipal Retirement Fund

Plan Description. The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org.

Funding Policy. As set by statute, the District's Regular plan members are required to contribute 4.50 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District contribution rate for calendar year 2012 used by the employer was 10.37 percent of annual covered payroll. The District annual required contribution rate for calendar year 2012 was 10.91 percent. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Notes To Financial Statements (continued)
June 30, 2013

Annual Pension Cost. For calendar year ending December 31, 2012, the District's actual contributions for pension cost for the Regular plan were \$648,477. Its required contribution for calendar year 2012 was \$682,245.

Three-Year Trend Information for the Regular Plan

	Fiscal Year		Annual Pension	Percentage of APC	Ne	t Pension
	iding		ost (APC)	Contributed		bligation
12/3	1/2012	\$	682,245	95%	\$	207,638
12/3	1/2011		675,495	89%		166,111
12/3	1/2010		643,856	86%		130,812

The required contribution for 2012 was determined as part of the December 31, 2010, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2010, included (a) 7.5 percent investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4.00% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post retirement benefit increases of 3% annually. The actuarial value of the District's Regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The District Regular plan's unfunded actuarial accrued liability at December 31, 2010 is being amortized as a level percentage of projected payroll on an open 30 year basis.

Funded Status and Funding Progress. As of December 31, 2012, the most recent actuarial valuation date, the Regular plan was 77.02 percent funded. The actuarial accrued liability for benefits was \$12,244,478 and the actuarial value of assets was \$9,430,119, resulting in an underfunded actuarial accrued liability (UAAL) of \$2,814,359. The covered payroll for calendar year 2012 (annual payroll of active employees covered by the plan) was \$6,253,390 and the ratio of the UAAL to the covered payroll was 45 percent.

The schedule of funding progress, presented as required supplemental information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

NOTE 9. OTHER POST EMPLOYMENT BENEFITS

Plan Description

The medical and dental benefit plans for the District are single-employer defined benefit healthcare reimbursement plans administered by the District. The District has the authority to establish and

Notes To Financial Statements (continued)
June 30, 2013

amend benefit provisions of the medical and dental benefit plans. The level of reimbursement is negotiated by the District and the applicable union groups.

Monthly Retiree Contributions

Retirees make no contributions toward the cost of District postretirement reimbursement plans.

Employer Contributions

The medical reimbursement plans for the District are funded on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation

The Annual OPEB Cost is calculated based on the Annual Required Contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of Annual OPEB Cost:

	FY 2013	FY 2012
Annual Required Contribution	\$ 714,744	\$ 757,304
Interest on net OPEB obligations	34,897	25,734
Adjustment to annual required contribution	(65,065)	(47,980)
Annual OPEB cost (expense)	684,576	735,058
Estimated Contributions made by the District	405,318	368,540
Increase in net OPEB obligation	 279,258	366,518
Net OPEB obligation - Beginning of Year	1,395,868	 1,029,350
Net OPEB obligation - End of Year	\$ 1,675,126	\$ 1,395,868

The annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the Net OPEB obligation at the end of the year is as follows:

	FY 2013	FY 2012
Annual OPEB cost (expense)	\$ 684,516	\$ 735,058
Estimated contributions made by District	405,318	368,540
Percentage of Annual OPEB Cost Contributed	59.2%	50.1%
Net OPEB Obligation as of December 31,	\$ 1,675,126	\$ 1,395,868

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are

Notes To Financial Statements (continued)
June 30, 2013

subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Valuation Method

The method used for the medical and dental benefit plans is called the projected Unit Credit Method. According to this method an equal amount of an employee's projected benefit is allocated to each year from the date the employee first enters the plan until the date the employee is first eligible to receive benefits.

Valuation of Assets

There are no assets that have been set aside to fund the liabilities for this plan. These plans are funded on a pay-as-you-go basis.

Eligible Plan Participants

All active and retired employees who are participants in the medical and dental benefit plans as of the date this valuation was performed are included in the calculations in this report.

Actuarial Assumptions

These are the actuarial assumptions used for this valuation.

Valuation Date July 1, 2012

Interest Rate 2.5%

Amortization Method Level Dollar Amount, Open

Amortization Period for Actuarial Accrued Liability 30 Years
Amortization Factor 21.454

Percent of Current Spouses Electing Coverage N/A

Mortality Table RP-2000 (gender distinct)

Notes To Financial Statements (continued)
June 30, 2013

The schedule of funding progress, presented as required supplemental information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets in increasing or decreasing over time relative to the actuarial accrued liability for benefits.

NOTE 10. FUND BALANCE REPORTING

According to Government Accounting Standards, fund balances are to be classified into five major classifications: Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance.

a. Nonspendable Fund Balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

b. Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories —

1. Special Education

Revenues and the related expenditures of this restricted tax levy are accounted for in the Educational Account. Expenditures exceeded revenue for this purpose, resulting in no restricted fund balance.

2. Tort Immunity

Expenditures and the related revenues are accounted for in the Tort Immunity Account. Revenues exceeded expenditures for this purpose; however, due to a nonspendable fund balance of \$91,444, the Tort Immunity Fund had an unassigned fund balance of \$325,287 at June 30, 2013.

3. State and Federal Grants

Proceeds from state and federal grants and the related expenditures have been included in the General Fund and various Special Revenue Funds. At June 30, 2013, expenditures exceeded revenue from state and federal grants, resulting in no restricted balances.

Notes To Financial Statements (continued)
June 30, 2013

4. Social Security

Expenditures and the related revenues of this restricted tax levy are accounted for in the Municipal Retirement/Social Security Fund. Revenues exceeded expenditures for this purpose, resulting in a restricted fund balance of \$360,056. The remaining balance is restricted for Municipal Retirement purposes.

5. Capital Projects Funds

Expenditures and the related revenues are accounted for in the Fire Prevention and Safety Fund. All equity within this fund is restricted for the associated capital expenditures within the fund.

c. Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

No committed balances existed as of June 30, 2013.

d. Assigned Fund Balance

The assigned fund balance classification refers to the amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

No assigned balances existed as of June 30, 2013.

e. Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Operating Funds for amounts that have not been restricted, committed, or assigned to specific purposes within the General Funds.

Notes To Financial Statements (continued)
June 30, 2013

f. Reconciliation of Fund Balance Reporting

Non-

Account/Fund	Spe	endable	R	estricted	C	ommitted	A	ssigned	Unassigned
Educational	\$	***	\$	_	\$	-	\$	-	\$ 24,248,787
Operations & Maintenance		-		•••		-		-	6,707,484
Working Cash		-		-		••		-	505,572
Tort Immunity		91,444		••		-		-	325,287
Debt Service		in		2,195,715		-		as	-
Transportation		***		341,036				-	••
Municipal Retirement		-		720,111		_		-	_
Fire Prevention and Safety		•		186,112		**		-	_
	\$	91,444	\$	3,442,974	\$	_	\$	_	\$ 31,787,130

g. Expenditures of Fund Balance

Unless specifically identified, expenditures disbursed act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures disbursed for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

NOTE 11. SUBURBAN SCHOOL COOPERATIVE INSURNACE POOL (SSCIP)

The District is a member of SSCIP, a voluntary cooperative agency consisting of Illinois public school districts and joint agreements. SSCIP's purpose is to manage and fund first-party property losses and third-party liability claims of its members. Each member district has a financial responsibility to make annual contributions based on property values, student enrollment, personnel employed, past loss history and vehicles owned.

No material decreases in insurance coverages have occurred nor have any insurance claims in excess of insurance coverages have paid per reported during the last three years.

Complete financial statements of SSCIP are available from its Treasurer at 5540 Arlington Drive, Hanover Park, IL 60103.

Notes To Financial Statements (concluded)
June 30, 2013

NOTE 12. SCHOOL EMPLOYEES LOSS FUND (SELF)

The District is a member of SELF, which has been formed to reduce local school districts' workers' compensation costs. SELF is controlled by a Board of Directors which is composed of representatives designed by each school district. The day-to-day operations of SELF are managed through and Executive Board elected by the Board of Directors. Each member district has a financial responsibility for annual membership contributions, which are calculated to provide for administrative expenses, specific and aggregate excess insurance coverage, and the funding of a portion of anticipated losses and loss adjustment expenses which will be borne directly by the membership. The losses and loss adjustment expenses to be borne by the membership are those which must be incurred prior to the attachment of excess insurance coverage. Complete financial statements for SELF can be obtained from their accountant at Two Pierce Place, Itasca, IL 60143.

NOTE 13. JOINT VENTURE – WILMETTE COMMUNITY SPECIAL EDUCATION AGREEMENT (WCSEA)

The District and other districts have entered into a joint agreement to provide special education programs and services to the students enrolled. Each member district has a financial responsibility for annual and special assessments as established by the policy board. Complete financial statements for the Agreement can be obtained from the Administrative Offices at 615 Locust Road Wilmette, Illinois 60091.

NOTE 14. STATE AND FEDERAL AID CONTINGENCIES

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

NOTE 15. CONTINGENT LIABILITIES

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorneys, the resolution of these matters will not have a material adverse effect on the financial condition of the District. The District has approximately \$4,900,000 in commitments related to future facility projects for FY13 – FY15.

Schedule of Funding Progress (unaudited)
Illinois Municipal Retirement Fund
June 30, 2013

Actuarial Valuation Date	-	Actuarial Value of Assets (a)	Lial	Actuarial Accrued bility (AAL) Entry Age (b)	Jnfunded AAL (UAAL) (b)-(a)	Funded Ratio (a)/(b)	(Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b)-(a)]/(c)
12/31/2012	\$	9,430,119	\$	12,244,478	\$ 2,814,359	77.02%	\$	6,253,390	45.01%
12/31/2011		8,599,557		11,654,148	3,054,591	73.79%		6,354,606	48.07%
12/31/2010		8,258,040		11,055,178	2,797,138	74.70%		6,464,422	43.27%

On a market value basis, the actuarial value of assets as of December 31, 2012 is \$9,929,580. On a market basis, the funded ratio would be 81.09%.

The actuarial value of assets and accrued liability cover active and inactive members who have service credit with Wilmette Public Schools District 39. They do not include amounts for retirees. The actuarial accrued liability for retirees is 100% funded.

BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets for all Governmental Funds are adopted on the modified accrual basis, consistent with generally accepted accounting principles (GAAP) for local governments. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the Governmental Funds. All encumbrances are canceled at year end, and, if necessary, are reinstated at the beginning of the subsequent fiscal year.

Legal spending control for District moneys is at the fund level, but management control is exercised at budgetary line item levels within each fund. The Board of Education, in accordance with Chapter 105, Section 5/17-1 of the *Illinois Compiled Statutes*, follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- 3. Prior to September 30 the budget is legally adopted through passage of a resolution. On or before the last Tuesday in December, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- 4. The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund without Board of Education approval; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education following the public hearing process mandated by law. The budget, which was not amended was adopted on August 27, 2012.
- 5. Formal budgetary integration is employed as a management control device during the year for the Governmental Funds.
- 6. The District has adopted a legal budget for all its Governmental Funds. Total actual expenditures for the governmental funds may not legally exceed the total budgeted for such funds. However, under the State Budget Act expenditures may exceed the budget if additional resources are available to finance such expenditures.
- 7. The budget (all appropriations) lapses at the end of each fiscal year.
