October 18, 2019

Citizens of Wilmette, Illinois
President and Members of the Board of Education
Wilmette Public Schools District 39
615 Locust Road
Wilmette, Illinois 60091

The Comprehensive Annual Financial Report of Wilmette Public Schools District 39, Wilmette, Illinois, for the fiscal year ended June 30, 2019 is hereby submitted. The audit fieldwork was completed on August 7, 2019 and the report was subsequently issued. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data as presented are: (1) accurate in all material aspects, (2) presented in a manner designed to fairly set forth the financial position and results of operations of the District as shown by the disclosure of all financial activity of its various funds; and (3) that all disclosures necessary for maximum public understanding of the District's financial status have been incorporated in the report.

Generally accepted accounting principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditors' report.

# **BASIS OF ACCOUNTING AND REPORTING**

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial and Statistical. The Introductory Section includes the transmittal letter, the District's organizational chart, and a list of principal officials. The Financial Section includes the management's discussion and analysis, government-wide financial statements, the fund financial statements, required supplementary information, individual fund statements, as well as the independent auditors' report. The Statistical Section includes a number of tables of unaudited data depicting the financial history of the District for the past ten years, demographics, and other miscellaneous information.

School District 39 is required to undergo an annual single audit in conformity with the provisions of the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this single audit, including the schedule of federal expenditures of federal awards, findings and recommendations and independent auditors' report on the internal control structure and compliance with applicable laws and regulations, are included in a separate report.

This report includes all funds of the District. The District reports on the full accrual basis of accounting for its government-wide financial statements and modified accrual for its fund financial statements. These bases are applied to the District's budget and accounting records. The Notes to Basic Financial Statements expand upon these bases as well as the District's accounting policies and procedures. All District funds are included in this report and have been audited by Klein Hall CPAs.

# **GENERAL INFORMATION**

The District is located approximately 15 miles north of the Chicago Loop, borders Lake Michigan, and comprises most of the Village of Wilmette and a small portion of Glenview. The village is a residential

community with a population of about 26,687. It consists of moderate to high-income residential housing and a prosperous commercial downtown area. There is no heavy industry in Wilmette. Wilmette, as a community, is built out.

District 39 was founded in 1901 and currently includes four elementary schools (Central Elementary, Harper Elementary, McKenzie Elementary and Romona Elementary), one middle school (Highcrest Middle School), one junior high school (Wilmette Junior High School) and an administration building, and had an enrollment of 3,549 in 2019. An elected 7-member Board of Education and a full-time administrative staff govern the District. The District employs 566 people. Of these, 19 are administrators, 340 are teachers and 207 are non-certified personnel. Elementary students in the District continue their education at New Trier Township High School, which is recognized as one of the leading high school educational institutions in the United States.

District 39 enjoys a high level of parental participation and involvement because parents make it a priority to be involved in their children's education. Many adults are engaged in professional pursuits. The high academic level characterizing the community contributes to the respect citizens have for quality education. As a result, citizens devote substantial time and effort to ensure that excellence prevails.

Community involvement is of paramount importance to District 39. Integral to the community is the District 39 Educational Foundation, which provides financial assistance to support individual, school, and community endeavors. Each school also has an active Parent Teacher Organization/Association which provides financial assistance, support and enrichment. Teachers, administrators, the Board of Education, and community members value all of these organizations as well. Community members are also involved in the Community Review Committee that helps study and prioritize goals for the school district.

#### REPORTING ENTITY

The District defines its reporting entity by applying the criteria set forth in GASB Statements 14 and 61 to potential component units. Briefly, a component unit is an organization for which the District is financially accountable or other organizations that, because of the nature or significance of their relationship with the District, would cause the District's financial statements to be misleading or incomplete if they were omitted from the reporting entity. These criteria are discussed in more detail in Note 1 to the general purpose financial statements.

Using these criteria, management has determined that the District has no component units, nor is it a component unit of any other organization.

#### **DISTRICT FUNDS**

The District's accounts are organized as separate accounting entities called funds. District resources are allocated to and accounted for in individual funds as required by the State of Illinois. Each fund has specific functions based upon the purposes for which the District's resources are to be expended. This allows for a more controlled process of spending activities. The following describes the fund types implemented in School District 39:

- 1) <u>General Fund</u> accounts for the revenues and expenditures that are used in providing the educational programs for the children of the District.
- 2) <u>Special Revenue Funds</u> account for specific revenue sources that are legally restricted to expenditures for specified purposes (e.g., Operations and Maintenance, Transportation, Working Cash and Municipal Retirement/Social Security).
- 3) <u>Debt Service Fund</u> accounts for the accumulation of resource for, and the payment of, general long-term debt principal, interest, and related costs. All bond issues are maintained through the Bond and Interest Fund.
- 4) <u>Capital Projects Fund</u> accounts for financial resources to be used for the acquisition or construction of major capital facilities.

5) <u>Agency Fund</u> – accounts for the assets held by the District for student organizations.

# ACCOUNTING SYSTEMS AND BUDGETARY CONTROL

The financial statements have been prepared in accordance with generally accepted accounting principles that are appropriate to local governmental units of this type. This presentation allows the reader to obtain an overview of the District's financial operations by viewing the basic financial statements in the front section of the report.

In developing and evaluating the District's accounting system, consideration is given to the adequacy of the internal accounting controls. Such controls are designed to provide reasonable, but not absolute, assurance for the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. We believe that our internal accounting controls adequately safeguard District assets and provide reasonable assurance of proper recording of financial data. Budgetary control is maintained at line item levels and built up into program and cost centers before being combined to create fund totals. All actual activity compared to budget is reported to the District's administrative team and to the Board of Education on a monthly basis. The monthly report compares each line item account balance to the annual budget with accumulation to the cost center, fund, and total district levels. Full disclosures are made if significant variances appear during the year.

We believe the District's accounting internal controls adequately safeguard assets and provide reasonable assurance of proper financial transactions. The audit results for the fiscal year ended June 30, 2019 report no instances of material weaknesses in the internal control or violations of applicable laws and regulations.

# **CAPITAL ASSETS**

The capital assets of the District are those assets used in the performance of general governmental functions. As of June 30, 2019, the District's capital assets, net of accumulated depreciation, amounted to \$41.9 million. This amount represents the actual and estimated original cost of the assets and is considerably less than their present replacement value.

Depreciation of capital assets is shown in order to satisfy the compliance with Governmental Accounting Standards Board Statement Number 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments but is generally not recognized in the District's accounting system. The District utilizes the assistance of an outside appraisal service for the appraisal, control and inventory of fixed assets. The appraisal service conducted a thorough physical inventory of the District's assets and equipment during the 2017-2018 Fiscal Year. This resulted in a reduction in value of capital assets in the amount of \$1,973,311. Annual updates to the inventory report will continue until the next physical inventory occurs.

Annual appraisals are used for the updating of replacement values for insurance purposes with the District providing historical cost information. The District participates in a property casualty insurance cooperative pool comprised of more than 60 school district members. The cooperative maintains a \$250,000 self-insured retention to insure losses up to \$1,000,000. Beyond the primary limits, excess insurance provides higher specific and aggregate protection for the District.

#### **ECONOMIC OUTLOOK**

The District's mature tax base is characterized by resident socioeconomic levels that are among the highest in the state and nation. In addition, its strong financial operations are supported by ample reserves and a manageable debt burden.

The District's fully developed and affluent tax base will continue to experience steady growth for the foreseeable future based on its desirable location on the North Shore of Lake Michigan. The District continues to maintain a solid tax base and still experience some growth, mostly through residential teardowns and reassessment. Resident socioeconomic indicators greatly exceed state and national levels.

The District maintains strong financial operations by implementing prudent fiscal policies, conservative management and maintaining ample reserves. The District's goal is to sustain an operating fund balance (Educational, O&M, Transportation, IMRF & Social Security, Tort Immunity & Judgment and Working Cash) at a level equivalent to at least 40% of annual operating expenditures. In FY19, the level was 69.1%, excluding transfers and on-behalf payments.

The Illinois General Assembly has imposed property tax legislation on all Cook County school districts. The legislation is designed to limit increases in property tax extensions. The limitation slows the growth of property tax revenues to school districts when property values and assessments are increasing faster than the rate of inflation. The legislation limits the levy increase to the lesser of five percent or the increase in the consumer price index (CPI) for the year preceding the levy year. This combined with the use of prior year equalized assessed valuation (EAV) generate property tax receipts. The use of the CPI and prior year EAV variables in property tax calculations is intended to "restrict" the amount of increase in a school district's levy request.

The administration, in collaboration with teachers and the Board of Education, will continue to provide an exemplary educational experience for all students in the District 39 community. With that being said, district administration continues to analyze long-range forecast financial projections, which are used in prudent fiscal planning sessions with members of the Board of Education.

# INDEPENDENT AUDIT

<u>The School Code of Illinois</u> and the District's adopted policy require an annual audit of the books of accounts, financial records and transactions of all funds of the District. The audit is performed by independent certified public accountants selected by the District's Board of Education. The independent auditors' opinion can be found at the beginning of the Financial Section of this report.

#### **ACKNOWLEDGEMENT**

It is our belief that this Comprehensive Annual Financial Report will provide the District's management, outside investors, and interested local citizens with a meaningful financial condition as of June 30, 2019.

We extend our appreciation to the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible, progressive manner.

#### Independent Auditor's Report

Board of Education Wilmette Public Schools District 39 Wilmette, Illinois

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wilmette Public Schools District 39 (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Wilmette Public Schools District 39 as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the District's basic financial statements for the year ended June 30, 2018, which are not presented with the accompanying financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The schedules of revenues, expenditures and changes in fund balances - budget and actual, related to the 2018 financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2018 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2018 schedules of revenues, expenditures and changes in fund balances - budget and actual are fairly stated in material respects in relation to the basic financial statements from which they have been derived.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 2, 2019, on our consideration of Wilmette Public Schools District 39's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

The discussion and analysis of Wilmette Public Schools District 39's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2019. The management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

All amounts, unless otherwise indicated, are expressed in millions of dollars.

#### **Financial Highlights**

- For the seventeenth year in a row, the District will retain the ISBE's highest financial rating for FY19, financial recognition, and its overall weighted score remained 4.00 on a 4-point scale.
- General revenues accounted for \$57.7 or 67.1% of total revenue. General revenues consisted of property tax revenues of \$53.2, other local revenues of \$1.6 and State aid not restricted to specific purposes of \$2.8.
- The District had \$82.1 in expenses related to government activities, of which, \$28.3 were offset by program specific charges, grants and contributions.
- In the coming year, the District committed \$3.5 for construction of the Highcrest Library/Media Technology center with large space air conditioning and special education classroom renovation. Additionally, the District budgeted \$3.5M for a three classroom addition at Harper Elementary School necessary for implementing the Kindergarten Enrichment Program.
- At Highcrest Middle School, the District completed construction of a four classroom addition with air conditioning and a secure office entrance.
- The District's long-term unutilized debt margin remains a healthy 90.1% for FY19 with an accessible debt capacity of \$111.7
- The District permanently transferred \$0.8 from the General Fund to the Debt Service Fund to cover debt principal and interest payments and \$4.3 from the General Fund to the Capital Projects Fund to fund construction project.

#### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

This report also contains other supplementary information in addition to the basic financial statements.

Management's Discussion and Analysis

#### Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets plus deferred outflows and liabilities plus deferred inflows, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). With the exception of the District's summer school enrichment program, the District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, operation and maintenance of facilities and transportation services.

#### Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Management's Discussion and Analysis

The District maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund (Educational, Operations and Maintenance, Working Cash and Tort Immunity Accounts) and Debt Service Fund, which are considered to be major funds. The Transportation, Municipal Retirement, Capital Projects, and Fire Prevention and Safety Fund are considered nonmajor funds.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

Fiduciary funds are used to account for resources held for the benefit of parties outside the school district. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that of government-wide financial statements.

#### Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### Other information

In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its non-certified employees and other post-employment benefits.

# **Government-Wide Financial Analysis**

Net Position: The District's total assets and deferred outflows are \$123.4, total liabilities and deferred inflows are \$105.6, and the total net position for the year ending June 30, 2019 is \$17.8. (See Table 1)

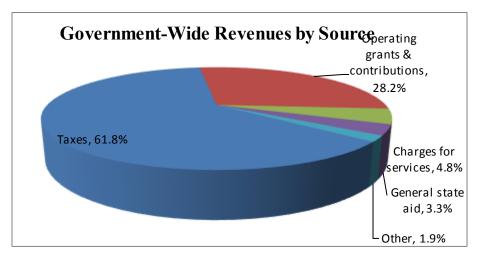

| Table 1                             |    |         |        |
|-------------------------------------|----|---------|--------|

| Net position - beginning, as adjusted         | <br>13.9   | 19.6       |
| Net position - end of year                    | \$<br>17.8 | \$<br>13.9 |

Property taxes accounted for most of the District's revenue, contributing about 61.9 cents of every dollar raised. The remainder comes from restricted and unrestricted state and federal revenues, fees charged for services and miscellaneous sources. The total cost of all programs and services was \$82.1. The District's expenses are predominantly (80.0%) related to instruction, pupil services and transportation of students.

# Financial Analysis of the District's Funds

The statement of net position includes capital assets and long-term liabilities and therefore presents a financial picture that is different from the traditional modified accrual statements. As the District completed the year, the ending fund balance in all funds was \$41.3, a \$0.3 increase for the year.

The ending fund balance in the operating funds is shown below.

| Operating Revenue                                     | \$62.6 |
|---|--------|
| Operating Expenditures                                | \$57.3 |
| Operating Fund Balance                                | \$39.6 |
| Operating Fund Balance as % of Operating Expenditures | 69.1%  |

Management's Discussion and Analysis

#### **General Fund**

FY19 revenues in the Educational Account of the General Fund exceeded expenses by \$.8. Local revenues increased by \$1.4 or 3.2% compared to last year. State educational aid decreased by 8.3%, excluding onbehalf payments, and federal aid increased 8.7% over 2018. Overall expenditures contributed to the enhancements of the instructional programs, negotiated certified staff salary increases, rising costs in health insurance premiums, and technology improvements. Expenditures of the Educational Account of the General Fund increased 2.0%, excluding on-behalf payments, resulting in a year-end fund balance of \$33.1, after taking into account net other financing uses of (\$0.8).

In FY19, revenues of the Operations and Maintenance Account of the General Fund were \$9.0 and expenditures were \$5.5, resulting in a year-end fund balance of \$2.2, after taking into account other financing sources and uses of (\$4.3).

The Working Cash Account of the General Fund received \$0.1 in tax levy proceeds and interest income. The District uses Working Cash Funds to help support operations through interfund transfers and loans when necessary. The ending fund balance for FY19 was \$1.1.

In FY19, revenues of the Tort Immunity Account of the General Fund were \$0.3 and expenditures were \$0.5 resulting in a year-end fund balance of \$0.6.

#### **Transportation Fund**

Overall, the FY19 Transportation Fund revenues exceeded expenditures by \$0.3. Revenue increased by 14.6%. This was due to the state catching up and paying 5 quarters of payments in FY19. Expenditures increased by 3.4% primarily due to a contracted increase with the transportation company for student bus service.

# **Municipal Retirement/Social Security Fund**

The Municipal Retirement/Social Security Fund revenues exceeded expenditures by \$0.1 resulting in a year end fund balance of \$0.8.

#### **Debt Service Fund**

The Debt Service Fund revenues exceeded expenditures and other financing sources by \$0.1, resulting in a year end fund balance of \$1.7.

#### Fire Prevention and Life Safety Fund

In FY11, the issuance of \$5.1 in long-term debt obligations provided the Fire Prevention and Life Safety Fund the necessary resources to complete designated Life Safety Projects identified through the 10-year Life Safety Survey. The ending fund balance at FY19 was \$0.0.

# **Capital Asset and Debt Administration**

# Capital assets

The District's capital assets consist of a total investment of \$102.4 (\$41.9 net of accumulated depreciation). Total depreciation expense for the year was \$3.5. More detailed information about capital assets can be found in Note 4 to the basic financial statements.

| Table 3 Capital Assets (net of depreciation) (in millions of dollars) |    |      |      |      |      |  |
|---|----|------|------|------|------|--|
|   |    | 2019 |      | 2018 |      |  |
| Land  | \$ | 0.6  | \$   |      | 0.6  |  |
| Land improvements   |    | 1.1  |      |      | 1.2  |  |
| Buildings   |    | 37.5 | 5    |      | 34.8 |  |
| Vehicles & Equipment  |    | 2.2  | 2    |      | 2.2  |  |

|   | -  |      |            |

Management's Discussion and Analysis

#### **ISBE Financial Profile**

The Illinois State Board of Education evaluated the financial integrity of all public school districts based on five standard indicators: operational balance-to-revenue ratio, operational expenditure-to-revenue ratio, operational cash-on-hand, short term debt capacity and long term debt capacity. These scores are weighted and summed to yield a total profile score.

| Projected District 39 FY ISBE Financial Profile Calculations |        |        |           |          |          |  |  |
|--|--------|--------|-----------|----------|----------|--|--|
|  |        |        |           | District | Max      |  |  |
| Indicator  | Value  | Rating | Weighting | Score    | Possible |  |  |

| Long term debt remaining                                     | 88.8%  | 4      | 0.10 _    | 0.40     | 0.40     |  |  |
|  |        |        | Total     | 4.00     | 4.00     |  |  |

The District's total profile score last year was 4.00 out of a possible 4.00. The projected score for FY19 is 4.00 out of a possible 4.00. Based on this state formula, the District will continue to be placed in the ISBE's highest category, "Recognition", for financial integrity. In the previous 10 years, the District has scored 4.00 in all but FY10 and FY11 when it received a 3.55.

## **Factors Bearing on the District's Future**

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that may significantly affect its financial health in the future:

- Since 1995, the District has been subject to tax cap legislation. This legislation severely limits the
  ability of the District to increase revenues proportionate to the increase in expenditures. The
  increase in expenditures are due to such factors as the expansion of instructional programming to
  meet the needs of the students, rising health care costs, contributed implementation of technology
  and facility needs. Balancing future budgets will continue to be a difficult challenge.
- 2. The District's certified staff negotiated contract runs through fiscal year 2021.
- 3. The District's support staff negotiated contract runs through fiscal year 2020.
- 4. Refunds from property tax appeals continue to have a negative effect on net local property tax revenue receipts.

#### 5. Pension Issues

Teachers' Retirement System (TRS) is the teacher pension plan in Illinois, covering all teachers and other certified staff employed by school districts outside the City of Chicago. Historically, the state of Illinois has assumed responsibility for school district contributions for all TRS employees on behalf of all school districts including District 39. However, the State of Illinois has a long history of not meeting its funding obligations to TRS. There are many years of non-payments and lost interest to make up; as a result, TRS is underfunded.

Management's Discussion and Analysis

The contributions by the State are recognized by each school district as both revenue and expenditures, as required by the State. They are shown on districts' financial statements as "on behalf" revenue and expenditures. In FY19 the "on-behalf" amount increased substantially from \$14.1 in FY 18 to \$22.0 in FY19.

Looking ahead, if the State of Illinois proceeded with a plan to shift some or all of pension costs to local school districts, D39 would need to cover additional pension costs with no increased revenues.

# **Requests for Information**

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Business Office:

Wilmette Public Schools District 39 Mikaelian Education Center 615 Locust Road Wilmette, IL 60091 (847) 512-6000

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement Of Activities Year Ended June 30, 2019

#### Net change in fund balances - total governmental funds

\$ 296,352

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$1,500 are capitalized and the cost is allocated over their estimated lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

| Capital outlays      | \$<br>6,666,722 |           |
|----------------------|-----------------|-----------|
| Depreciation expense | (3.526,364)     | 3,140,358 |

Because some of the governmental revenues will not be collected for several months after the School District's fiscal year ends, they are not considered "available" revenues and are not accrued in the governmental funds.

(181,601)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These activities consist of:

| Change in net pension liability - TRS                   | \$<br>541,213 |             |
|---|---------------|-------------|
| Change in net pension liability - IMRF                  | (4,882,252)   |             |
| Change in other postemployment benefits obligation      | (654,212)     |             |
| Change in deferred inflows/outflows related to pensions | 4,161,741     |             |
| Change in deferred inflows/outflows related to OPEB     | (350,181)     | (1,183,691) |

The governmental funds record bond and loan proceeds as other financing sources, while repayment of bond and loan principal is reported as an expenditure. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences in the treatment of bonds and loans and related items is as follows:

| Repayment of bond and loan principal | 1,760,000 |           |
|--------------------------------------|-----------|-----------|
| Bond premium/discount amortization   | 53,892    |           |
| Deferred refunding amortization      | (35,016)  | 1,778,876 |

Notes To Financial Statements June 30, 2019

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Wilmette Public School District 39 (the District) operates as a public school system governed by a seven member board. The District is organized under the School Code of the State of Illinois, as amended. The accounting policies of the District conform to accounting principles generally accepted in the United States of America, as applicable to local governmental units of this type. The following is a summary of the more significant accounting policies of the District:

## a. The Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include or exclude a potential component unit in reporting entity is made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The definition of a component unit is a legally separate organization for which the District is financially accountable and other organizations for which nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The District is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the District. The District also may be financially accountable if an organization is fiscally dependent on the District, regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government or (3) a jointly appointed board. There are no component units, as defined by GASB, which are included in the District's reporting entity. Even though there are local government agencies within the geographic area served by the District, such as the municipality, library and park district, these agencies have been excluded from the report because they are legally separate and the District is not financially accountable for them.

The District is not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

Joint Ventures - The District is also a member of the following organization: Wilmette Community Special Education Agreement (see Note 12)

#### b. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The following summarizes the fund types used by the District:

Governmental funds include the following fund types:

**General Fund** – The General Fund, which consists of the legally mandated Educational Account, Operations and Maintenance Account, Tort Immunity Account and Working Cash Account, is used to account for the revenues and expenditures, which are used in providing education in the District. It is used to account for all financial resources except those accounted for in other funds.

Notes To Financial Statements (continued) June 30, 2019

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Educational Account** – These accounts are used for most of the instructional and administrative aspects of the District's operations, as well as providing school lunch services to students. The revenue consists primarily of local property taxes, state government aid and student registration fees and lunch receipts from the District food service program.

**Operations and Maintenance Account** – These accounts are used for expenditures made for operation, repair and maintenance of District property. Revenue consists primarily of local property taxes.

**Tort Immunity Account** – This fund accounts for revenues and expenditures related to tort immunity. Revenue is primarily derived from local property taxes.

**Working Cash Account** – This fund accounts for financial resources held by the District to be used as loans for working capital requirements to any other fund for which taxes are levied. The Working Cash Account was established and has been used to respond to fluctuations in cash flow resulting from unpredictable property tax collections. The earnings of the fund are allowed to be transferred to another fund under the <u>Illinois Compiled Statutes</u>. The principal of the fund, accumulated from bond issues, can be used as a source from which the District borrows money to support temporary deficiencies in other funds, or may be partially or fully transferred to the General Fund's Educational Account, upon Board approval.

**Special Revenue Funds** – Special Revenue Funds account for the proceeds of specific revenue sources (other than Debt Service and Capital Projects Funds) that are legally restricted to expenditures for specified purposes. The District's Special Revenue Funds are the Transportation and Municipal Retirement/Social Security Funds.

**Transportation Fund** – This fund accounts for the revenue and expenditures relating to student transportation, both to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

**Municipal Retirement/Social Security Fund** – This fund accounts for the District's portion of the pension contributions to the Illinois Municipal Retirement Fund for noncertified employees and social security contributions for applicable certified and noncertified employees. Revenue to finance the contributions is derived primarily from local property taxes.

**Debt Service Funds** – Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Capital Projects Funds – Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Notes To Financial Statements (continued) June 30, 2019

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Capital Project Fund** – The Capital Projects Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities.

**Fire Prevention and Safety Fund** – The Fire Prevention and Safety Fund accounts for financial resources to be used for acquisitions and construction projects, which qualify as Fire Prevention and Safety expenditures.

#### **Fiduciary Fund Type**

Agency Funds – The Agency Funds (Activity Funds) account for assets held by the District in trustee capacity or as an agent for student organizations. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide financial statements.

The District reports the following funds as major governmental funds:

General Fund Debt Service Fund

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District has adopted a policy to net the interfund receivables and payables for combined totals used to determine the major funds. Consequently, the interfund loan balances, which net to zero, are not utilized to determine major funds.

#### c. Basis of Presentation – Governmental Funds Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. All of the District's operating activities are considered governmental activities, that is, activities that are normally supported by taxes and intergovernmental revenue. The District has no operating activities that would be considered business-type activities.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Notes To Financial Statements (continued) June 30, 2019

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### d. Net Position

# **Government-Wide Statements**

Net position is classified and displayed in three components:

- Net investment in capital assets. Consists of capital assets, including restricted capital
  assets, net of accumulated depreciation and reduced by the outstanding balances of any
  bonds, mortgages, notes, or other borrowings that are attributable to the acquisition,
  construction, or improvements of those assets and adjusted for any deferred inflows and
  outflows of resources attributable to capital assets and related debt.
- Restricted. Consists of restricted assets reduced by liabilities and deferred inflows or resources related to those assets, with restriction constraints placed on the use either by external groups, such as creditors, grantors, contributors, or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.
- Unrestricted. Net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

It is the District's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

#### e. Basis of Accounting/Measurement Focus

The government-wide financial statements and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Fiduciary fund reporting focuses on net position and changes in net position. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities in the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Interest associated with the current fiscal period is considered to be susceptible to accrual and so has been recognized as a revenue of the current period. All other revenue items are considered to be measurable and available only when the District receives the cash.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Notes To Financial Statements (continued) June 30, 2019

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### f. Deposits and Investments

State statues and the District's investment policy authorize the District to invest in obligations of the U.S. Treasury, certain highly rated commercial paper, corporate bonds, repurchase agreements, and State Treasurer's Investment Pool. Investments are stated at fair value, which is the market value as determined by published reports of such values.

#### g. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". These amounts are eliminated in the governmental activities column in the statement of net position. Receivables are expected to be collected within one year.

#### h. Revenues - Exchange and nonexchange transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements that specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest, grants, entitlements and student fees.

#### i. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Notes To Financial Statements (continued) June 30, 2019

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# j. Property Tax Revenues

The District must file its tax levy ordinance by the last Tuesday in December of each year. The District's 2018 levy ordinance was originally approved during the December 17, 2018 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year. The District's annual property tax levy is subject to two statutory limitations: Individual fund rate ceilings and the Property Tax Extension Limitation Act (PTELA).

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation.

Property taxes are collected by the County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two equal installments; the first due on March 1 and the second due on August 1 for property located in Cook County. Property taxes are normally collected by the District within 60 days of the respective installments dates. Due to the allocation method used, individual fund rates for Cook County may exceed the statutory limits; however, the combined extension is limited to the statutory rate limits extended on the combined equalized assessed valuation.

The 2018 property tax levy is recognized as a receivable in fiscal year 2019. The District considers that the first installment of the 2018 levy is to be used to finance operations in fiscal 2019. The District has determined that the second installment of the 2018 levy is to be used to finance operations in fiscal year 2020 and has deferred the corresponding receivable.

#### k. Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement Fund, with the balance allocated to the remaining funds at the discretion of the District.

# I. Prepaid Items

Certain payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid assets under the consumption method.

#### m. Capital Assets

Capital assets, which include land, buildings, buildings improvements, vehicles, equipment, and construction in progress, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$1,500 and an estimated useful life of one year or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

Notes To Financial Statements (continued) June 30, 2019

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives:

| Assets                              | Years       |
|-------------------------------------|-------------|
|                                     |             |
| Buildings and building improvements | 20-75 years |
| Land improvements                   | 20-75 years |
| Furniture, equipment and vehicles   | 5-20 years  |

# n. Compensated Absences

Employees receive fifteen sick days annually. Certified staff can accumulate up to 376 days and the non-certified staff could accumulate up to 300 days. Sick leave is not paid out upon termination.

Non-certified 12-month employees receive two to four weeks of vacation time each fiscal year, depending upon years of service. As of June 30, 2019, any vacation time earned but not yet used has not been accrued, as the amount is immaterial. Certified employees who work less than 12 calendar months per year do not earn vacation days.

# o. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the governmental fund financial statements, the full amounts of discounts, as well as bond issuance costs, are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### p. Reserved Fund Balances

In the governmental funds financial statements, the District reserves those portions of fund balances which are legally segregated for a specific purpose or do not represent amounts available for other appropriations.

Notes To Financial Statements (continued) June 30, 2019

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### q. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF), together "the Plans," and additions to/deductions from the Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### r. Comparative Data

The financial statements include summarized prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2018, from which such information was derived.

#### s. Eliminations and Reclassifications

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

# t. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

#### 2. CASH AND INVESTMENTS

# a. Deposits and Custodial Credit Risk

Investments held by the District which are short-term highly liquid investments having a remaining maturity of one year or less at the time of purchase are reported by the District at amortized cost. All other investments are reported at fair value. Gains or losses on the sale of investments are recognized upon realization. The District has adopted a formal written investment and cash management policy. The institutions in which investments are made must be approved by the Board of Education.

At June 30, 2019 the carrying amount of the District's deposits, which include both cash and certificates of deposit (excluding cash on hand of \$100 and student activity funds of \$306,529), totaled \$36,458,273 and the bank balances totaled \$37,682,756. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's investment policy requires collateral to be pledged and held by a third party custodian in the name of the District. Collateral must meet or exceed the market value of the uninsured deposits. As of June 30, 2019 all of the District's deposits were collateralized.

Notes To Financial Statements (continued) June 30, 2019

# 2. CASH AND INVESTMENTS (Continued)

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is an investment pool created and regulated by the Illinois General Assembly. The fair value of the District's investment in ISDLAF+ has been determined using the net asset value (NAV) per share (or its equivalent) of the investments. The NAV of the Liquid Class and MAX Class are determined as of the close of business on each Illinois banking day. The Multi-Class Series invests in high-quality short-term debt instruments (money market instruments), and shares may be redeemed on any Illinois banking day. The Term Series invest in high-quality debt instruments, which are generally money market instruments but may include instruments with a maturity over one year, and shares may be redeemed with seven days' advance notice. There were no known restrictions on redemption of the District's investments as of June 30, 2019.

The fair value of the District's investments as of June 30, 2019 were as follows:

| Investment Type           | <u> </u> | Fair value | Maturities<br>(in years)<br>Less than 1 | Percent of<br>Portfolio | Applicable<br>Agency<br>Rating |
|---------------------------|----------|------------|---|-------------------------|--------------------------------|
| ISDLAF+ Liquid Series     | \$       | 2,586      | \$<br>2,586                             | 0.0%                    | AAAm                           |
| ISDLAF+ MAX Series        |          | 65,297     | 65,297                                  | 0.6%                    | AAAm                           |
| US Treasury Notes & Bills |          | 10,975,264 | 10,975,264                              | 99.4%                   | AAA                            |
| Total Investments         | \$       | 11,043,147 | \$<br>11,043,147                        | 100.0%                  |                                |

Interest Rate Risk. The District's investment policy seeks to ensure the preservation of capital in the District's overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However the policy requires the District investment portfolio to be sufficiently liquid to enable the District to meet all operating requirements as they come due. A portion of the portfolio is required to be invested in readily available funds to ensure appropriate liquidity.

Credit Risk. The District's investments are rated, as shown above, by the applicable rating agency.

Concentration of Credit Risk. The District places no limit on the amount of the District may invest any one issuer.

Custodial Credit Risk. With respect to deposits, custodial credit risk is the risk that, in the event of bank failure the District's deposits may not be returned to them. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be insured by collateral.

Notes To Financial Statements (continued) June 30, 2019

# 2. CASH AND INVESTMENTS (Continued)

With respect to investments, custodial credit risk is the risk that, in the event of failure of the counterparty, the government will not be able to recover the value of its investment or collateral securities that are in possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring all investments be secured by private insurance or collateral.

Separate cash and investment accounts are not maintained for all District funds; instead, the individual funds maintain their invested and uninvested balances in the common account balance attributable to each participating fund.

Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts results from expenditures that have been approved by the Board of Education.

#### 3. INTERFUND TRANSFERS

The following interfund transfers were made during the year ended June 30, 2019:

| Transfer From  | Transfer To  | Amount                                |
|--|--|---------------------------------------|
| General Fund - Educational Account<br>General Fund - O&M Account<br>General Fund - O&M Account | General Fund - O&M Account<br>Debt Service Fund<br>Capital Projects Fund | \$<br>750,000<br>799,543<br>4,260,137 |
|  |  | \$<br>5,809,680                       |

The transfers to the O&M Account and Capital Projects Fund was made to provide funds for building construction. Transfers to the Debt Service Fund were made to provide funds for debt service payments.

Notes To Financial Statements (continued) June 30, 2019

# 4. CAPITAL ASSETS

A summary of changes in capital assets follows:

|   | E    | Balance     |                 |    |          |     | Balance     |
|---|------|-------------|-----------------|----|----------|-----|-------------|
|   | Jur  | ne 30, 2018 | Additions       | D  | eletions | Jui | ne 30, 2019 |
| Capital assets, not being depreciated:      |      |             |                 |    |          |     |             |
| Land  | \$   | 610,765     | \$<br>-         | \$ | -        | \$  | 610,765     |
| Construction in progress                    |      | -           | 516,758         |    | -        |     | 516,758     |
| Total capital assets not being depreciated  |      | 610,765     | 516,758         |    | -        |     | 1,127,523   |
| Capital Assets, being depreciated:          |      |             |                 |    |          |     |             |

# a. Debt Margin

The District is subject to the <u>Illinois Compiled Statues</u> which limits the amount of bond indebtedness, including the certificate of participation, to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2019, the statutory debt limit for the District was \$123,951,781 providing a debt margin of \$111,715,813 after taking into account amounts available in the Debt Service Fund.

# b. Certificates of Participation

In fiscal year 2012, the District issued \$7,515,000 in Debt Certificates with an average interest rate of 3.41%. The net proceeds of \$8,176,559 (after premium and payment of underwriting fees, insurance and other issuance costs) were deposited into the Operations and Maintenance Account to be used for various projects. The debt certificates will be repaid from the Debt Service Fund.

Annual debt service requirements to maturity for debt certificates are as follows:

Notes To Financial Statements (continued) June 30, 2019

#### 6. RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect from such risks, the District participates in the entity risk pools (see Notes 10 and 11). SSCIP for its general liability and property coverage and School Employees Loss Fund (SELF) for workers' compensation claims. The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that each will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pools.

The District continues to carry commercial insurance for all other risks of loss, including torts and professional liability insurance. Premiums have been recorded as expenditures in the appropriate funds. No significant reductions in insurance coverage have occurred from the prior year, and no settlements have been made in the last three years which exceeded any insurance coverage.

#### 7. RETIREMENT FUND SYSTEMS

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

# a. Teachers' Retirement System of the State of Illinois (TRS)

#### Plan Description

The District participates in the TRS. TRS is a cost-sharing, multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at <a href="https://www.trsil.org/financial/cafrs/fy2018">https://www.trsil.org/financial/cafrs/fy2018</a>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

#### Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for

Notes To Financial Statements (continued) June 30, 2019

#### 7. RETIREMENT FUND SYSTEMS (Continued)

Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2020. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1and 2 members to receive a partial-lump sum payment in lieu of a retirement annuity. Both programs will begin in 2019 and will be funded by bonds issued by the State of Illinois.

#### Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2019, was 9.0% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

**On-behalf contributions to TRS.** The State of Illinois makes employer pension contributions on-behalf of the District. For the year ended June 30, 2019, State of Illinois contributions recognized by the District were based on the State's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$21,657,550 in pension contributions from the State of Illinois.

**2.2 formula contributions.** The District contributes 0.58% of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2019 were \$179,583, and are deferred because they were paid after the June 30, 2018 measurement date.

**Federal and special trust fund contributions.** When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Notes To Financial Statements (continued) June 30, 2019

# 7. RETIREMENT FUND SYSTEMS (Continued)

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2019, the employer pension contribution was 9.85% of salaries paid from federal and special trust funds. For the year ended June 30, 2019, salaries totaling \$115,630 were paid from the federal and special trust funds that required employer contributions of \$11,390. These contributions are deferred because they were paid after the June 30, 2018 measurement date.

**Employer retirement cost contributions.** Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members granted salary increases over 6% if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2019, the District paid \$14,150 to TRS for employer contributions due on excess governor's statutory salary contributions and paid \$4,058 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for State pension support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the net pension liability | \$<br>3,366,281   |
|---|-------------------|
| State's proportionate share of the net pension liability    |                   |
| associated with the District                                | 230,604,352       |
| Total   | \$<br>233,970,633 |
|   |                   |

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 and rolled forward to June 30, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2018, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2018, the District's proportion was 0.00432%, which was a decrease of 0.00079% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$21,657,550 and revenue of \$21,657,550 for support provided by the state. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

# Actuarial Assumptions

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases Varies by amount of service credit

Investment rate of return 7.00%, net of pension plan investment expense

Notes To Financial Statements (continued) June 30, 2019

# 7. RETIREMENT FUND SYSTEMS (Continued)

In the June 30, 2019 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates are based on fully generational basis using projection table MP-2017. In the June 30, 2017 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2014.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

|                           |            | Long-Term          |
|---------------------------|------------|--------------------|

#### Discount rate

At June 30, 2018, the discount rate used to measure the total pension liability was 7.0 percent, which was the same as the June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2018 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes To Financial Statements (continued) June 30, 2019

#### 7. RETIREMENT FUND SYSTEMS (Continued)

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

|                                   | Current                   |           |         |           |            |           |

| the net pension liability         | \$                        | 4,128,425 | \$      | 3,366,281 | \$         | 2,752,525 |

Detailed information about the TRS's fiduciary net position as of June 30, 2018 is available in the separately issued TRS Comprehensive Annual Financial Report.

# b. Illinois Municipal Retirement Fund (IMRF)

Plan Description and Benefits

The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained online at <a href="https://www.imrf.org">www.imrf.org</a>.

All employees (other than those covered by TRS) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Notes To Financial Statements (continued) June 30, 2019

# 7. RETIREMENT FUND SYSTEMS (Continued)

#### Plan Membership

As of June 30, 2019, the following employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefits | 260   |
|--|-------|
| Inactive employees entitled to but not yet receiving benefits    | 670   |
| Active employees   | 211   |
| Total  | 1,141 |

#### Contributions

As set by statute, Regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actual contribution rates for calendar years 2018 and 2019 were 9.15% and 6.90% of covered payroll, respectively. The District contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### Net Pension Liability

The District's net pension liability was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

#### Actuarial Assumptions

The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method Entry Age Normal
Asset valuation method Market Value of Assets

Price inflation 2.50%

Salary increases 3.39% to 14.25%

Investment rate of

return 7.25%

Retirement age Experience-based table of rates that are specific to

the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of

the period 2014-2016.

Notes To Financial Statements (continued) June 30, 2019

# 7. RETIREMENT FUND SYSTEMS (Continued)

#### Mortality

For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class            | Target Allocation | Long-Term Expected<br>Real Rate of Return |
|------------------------|-------------------|---|
|                        |                   |   |
| Domestic equities      | 37.0%             | 7.15%                                     |
| International equities | 18.0%             | 7.25%                                     |
| Fixed income           | 28.0%             | 3.75%                                     |
| Real estate            | 9.0%              | 6.25%                                     |
| Alternatives           | 7.0%              | 3.20-8.50%                                |
| Cash equivalents       | 1.0%              | 2.50%                                     |
| •                      | 100.0%            | _   |

#### Discount Rate

The Single Discount Rate used to measure the total pension liability for IMRF was 7.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

 The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and

Notes To Financial Statements (continued) June 30, 2019

# 7. RETIREMENT FUND SYSTEMS (Continued)

The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds
with an average AA credit rating (which is published by the Federal Reserve) as of the
measurement date (to the extent that the contributions for use with the long-term expected
rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.31%, and the resulting single discount rate is 7.50%.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Notes To Financial Statements (continued) June 30, 2019

# 7. RETIREMENT FUND SYSTEMS (Continued)

For the year ended June 30, 2018, the District recognized pension expense of \$836,259. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred Outflows |           | De | eferred Inflows of |
|--|-------------------|-----------|----|--------------------|
|  | of                | Resources |    | Resources          |
| Difference between expected and actual experience                            | \$                | -         | \$ | 39,999             |
| Changes in assumptions   |                   | 381,002   |    | -                  |
| Net difference between projected and actual                                  |                   |           |    |                    |
| earnings on pension plan investments   |                   | 4,228,405 |    | 2,076,125          |
| Total deferred amounts to be recognized in pension expense in future periods |                   | 4.609.407 |    | 2,116,124          |
| pension expense in luture penous   |                   | 4,009,407 |    | 2,110,124          |
| Contributions subsequent to the measurement date                             |                   | 256,160   |    |                    |
| Total  | \$                | 4,865,567 | \$ | 2,116,124          |

\$256,160 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

|             | 1  | Net Deferred |  |  |  |
|-------------|----|--------------|--|--|--|
| Year Ending |    | Ouflows of   |  |  |  |
| December 31 |    | Resources    |  |  |  |
|             |    | _            |  |  |  |
| 2019        | \$ | 1,041,478    |  |  |  |
| 2020        |    | 276,680      |  |  |  |
| 2021        |    | 241,542      |  |  |  |
| 2022        |    | 933,583      |  |  |  |
| 2023        |    | -            |  |  |  |
|             |    |              |  |  |  |
| Total       | \$ | 2,493,283    |  |  |  |

#### 8. OTHER POST EMPLOYMENT BENEFITS

#### a. District Plan

# Plan Description and Benefits

The District administers a single-employer defined benefit healthcare plan, the "retiree Healthcare Benefit Program: or "the Plan". The plan provides healthcare insurance for eligible retirees and their dependents through the District's group health insurance plan, which covers both active and retired members. Benefit provisions are established by state law and through negotiations between the District and the unions representing District employees, which are renegotiated each bargaining period. As of June 30, 2018, all retirees are eligible for benefits pre and post-Medicare. The Plan does not issue a stand-alone financial report.

Notes To Financial Statements (continued) June 30, 2019

# 8. OTHER POST EMPLOYMENT BENEFITS (Continued)

Retired teachers are eligible for the Teachers' Retirement Insurance Program (TRIP) with the State of Illinois. Retirees are responsible for the portion of premium rates not covered by the District's health plan and are responsible for the full premium rate. Certain retirees are eligible to receive a stipend to reimburse them for the cost of their health insurance.

Eligibility – Teachers must be age 50 or older with a minimum of 10 years of full-time employment in the District and retire under the provisions of the Illinois Teachers' Retirement. Administrators must submit their irrevocable notice of retirement no less than two years before their retirement date and meet the eligibility requirements to retire under TRS or IMRF. IMRF employees must meet the State requirements for eligibility. Non-union employees must meet the IMRF eligibility requirements. Surviving spouses of IMRF and non-union employees are eligible to remain on the District's plan until age 65.

# **Funding Policy**

All plan funding is done on a pay-as-you go basis.

By allowing retirees (who are generally older than the District's other employees) to remain on the District's health coverage, there is an implicit rate subsidy to the retirees as they are paying a lower rate for health insurance than they could get on the open market. Because of this implicit rate subsidy, the actual cost to the District is indeterminable. However, it is estimated that for the fiscal year June 30, 2019, the District's cost for the plan was \$147,746.

# **Employees Covered by Benefit Terms**

As of June 30, 2019, the following employees were covered by the benefit terms.

| Inactive employees or beneficiaries currently receiving benefits | 247 |
|--|-----|
| Active employees   | 572 |
| Total  | 819 |

# **Net OPEB Liability**

The District's net OPEB liability was measured as of June 30, 2019. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

#### **Actuarial Assumptions**

The following are the methods and assumptions used to determine the total OPEB liability at June 30, 2019:

| Actuarial cost method | Entry Age Normal |
|-----------------------|------------------|
| A ( 1 () (1 1         | A I / A          |

Asset valuation method N/A
Inflation 2.50%
Salary increases 3.50%
Investment rate of return N/A

Retirement rates IMRF - Rates from the December 31, 2018 IMRF Actuarial

Valuation Report

TRS - Rates from the June 30, 2018 Teachers' Retirement

System Actuarial Report

# 8. OTHER POST EMPLOYMENT BENEFITS (Continued)

Mortality RP-2014 Combined Annuitant Mortality Tables for males and

females.

Healthcare cost trend

rates

For fiscal years on and after 2020, trend starts at 5.50% for the District's Plan and 5% for TRIP, and gradually decreasing

to an ultimate trend of 4.50% by 2030.

#### **Discount Rate**

The District does not have a dedicated Trust to pay the benefits of the Plan. Per GASB 75, this discount rate is a yield or index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale). The discount rate used is 2.79%, which is the S&P Municipal Bond 20 Year High-Grade Rate Index as of June 30, 2019.

Notes To Financial Statements (continued) June 30, 2019

#### 8. OTHER POST EMPLOYMENT BENEFITS (Continued)

# b. Teacher Health Insurance Security Fund (THIS)

#### Plan Description

The District participates in the THIS. The THIS is a cost-sharing, multiple-employer defined benefit post-employment healthcare plan (OPEB) that was established by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. The THIS members are retirees of public schools who were certified educators or administrators. Eligibility is currently limited to former full-time employees, and others who were not full-time employees that meet certain requirements, and their dependents. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) (SEGIA) establishes the eligibility and benefit provisions of the plan.

The THIS issues a publicly available financial report that can be obtained at the website of the Illinois Auditor General: <a href="https://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp">https://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp</a>. The current reports are listed under "Central Management Services"; prior reports are available under "Healthcare and Family Services".

#### Benefits Provided

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state administered participating provider option plan or choose from several managed care options. Annuitants who were enrolled in Medicare Parts A and B may be eligible to enroll in Medicare Advantage Plans.

Amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS.

#### Contributions

The SEGIA requires that all active contributors to the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.24% of salary and for every employer of a teacher to contribute an amount equal to 0.92% of each teacher's salary. Additionally, the SEGIA requires the State to match the employees' contribution on-behalf of the employer. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THIS, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The SEGIA requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

Notes To Financial Statements (continued) June 30, 2019

# 8. OTHER POST EMPLOYMENT BENEFITS (Continued)

**On-behalf contributions to THIS.** The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 1.24% of pay during the year ended June 30, 2019. State of Illinois contributions were \$383,936 and the district recognized revenue and expenditures of this amount during the year.

**Employer contributions to THIS Fund.** The District also makes contributions to THIS Fund. The District THIS Fund contribution was 0.92% during the year ended June 30, 2019. For the year ended June 30, 2019, the District paid \$284.856 to the THIS Fund, which was 100 percent of the required contribution. These contributions are deferred because they were paid after the June 30, 2018 measurement date.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the District reported a liability for its proportionate share of the net OPEB liability. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

| District's proportionate share of the net OPEB liability | \$<br>34,384,776 |
|--|------------------|
| State's proportionate share of the net OPEB liability    |                  |
| associated with the District                             | 46,171,356       |
| Total  | \$<br>80,556,132 |

The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017 and rolled forward to June 30, 2018. The District's proportion of the net OPEB liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2018, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2018, the District's proportion was 0.1305%, which was an increase of 0.0010% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized OPEB expense of \$1,849,794.

At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

# Actuarial Valuation Method

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

#### Actuarial Assumptions

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Notes To Financial Statements (continued) June 30, 2019

#### 8. OTHER POST EMPLOYMENT BENEFITS (Continued)

| Inflation                   | 2.75%   |
|-----------------------------|---|
| Salary increases            | Depends on service and ranges from 9.25% at 1 year of service to 3.25% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption,  |
| Investment rate of return   | 0.00%, net of OPEB plan investment expense, including inflation.  |
| Healthcare cost trend rates | Actual trend used for fiscal year 2018. For fiscal years on and after 2019, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.50%. Additional trend rate of 0.36% is added to non-Medicare costs on and after 2022 to account for Excise Tax. |

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table, All tables reflect future mortality improvements using Projection Scale MP-2014.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2014.

#### Discount rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 3.56% as of June 30, 2017, and 3.62% as of June 30, 2018. The increase in the single discount rate from 3.56% to 3.62% caused the total OPEB liability to decrease by approximately \$285 million from 2017 to 2018.

Sensitivity of the employer's proportionate share of the net OPEB liability to changes in the discount rate and healthcare cost trend rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.62%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.62%) or 1-percentage-point higher (4.62%) than the current rate:

|                                   | Current |            |             |            |            |            |  |  |  |  |
|-----------------------------------|---------|------------|-------------|------------|------------|------------|--|--|--|--|
|                                   | 19      | % Decrease | scount Rate | 1          | % Increase |            |  |  |  |  |
|                                   |         | (2.62%)    |             | (3.62%)    |            | (4.62%)    |  |  |  |  |
|                                   |         |            |             |            |            |            |  |  |  |  |

| the net OPEB liability            | \$      | 41,343,737 | \$          | 34,384,776 | \$         | 28,891,249 |  |  |  |  |
|                                   |         |            |             | <u> </u>   |            |            |  |  |  |  |

Notes To Financial Statements (continued) June 30, 2019

# 8. OTHER POST EMPLOYMENT BENEFITS (Continued)

The following presents the District's proportionate share of the net OPEB liability calculated using the healthcare cost trend rate, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

|  | 19 | % Decrease<br>(a) | -  | althcare Cost<br>Frend Rate<br>ssumptions | 1% Increase<br>(b) |            |  |
|--|----|-------------------|----|---|--------------------|------------|--|
| District's proportionate share of the net OPEB liability | \$ | 27,880,484        | \$ | 34,384,776                                | \$                 | 43,147,617 |  |

- (a) One percentage point decrease in healthcare trend rates are 7.00% in 2018 decreasing to an ultimate trend rate of 4.09% in 2025, for non-Medicare coverage, and 8.00% in 2018 decreasing to an ultimate trend rate of 3.50% in 2027 for Medicare coverage.
- (b) One percentage point increase in healthcare trend rates are 9.00% in 2018 decreasing to an ultimate trend rate of 6.09% in 2025, for non-Medicare coverage, and 10.00% in 2018 decreasing to an ultimate trend rate of 5.50% in 2027 for Medicare coverage.

#### 9. FUND BALANCE REPORTING

According to Government Accounting Standards, fund balances are to be classified into five major classifications: Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance.

#### a. Nonspendable Fund Balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

#### b. Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes.

#### c. Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

Notes To Financial Statements (continued) June 30, 2019

# 9. FUND BALANCE REPORTING (Continued)

#### d. Assigned Fund Balance

The assigned fund balance classification refers to the amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

# e. Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Operating Funds for amounts that have not been restricted, committed, or assigned to specific purposes within the General Funds.

#### f. Expenditures of Fund Balance

Unless specifically identified, expenditures disbursed act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures disbursed for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified

# 10. SUBURBAN SCHOOL COOPERATIVE INSURANCE POOL (SSCIP)

The District is a member of SSCIP, a voluntary cooperative agency consisting of Illinois public school districts and joint agreements. SSCIP's purpose is to manage and fund first-party property losses and third-party liability claims of its members. Each member district has a financial responsibility to make annual contributions based on property values, student enrollment, personnel employed, past loss history and vehicles owned.

Complete financial statements of SSCIP are available from its Treasurer at 5540 Arlington Drive, Hanover Park, IL 60103.

#### 11. SCHOOL EMPLOYEES LOSS FUND (SELF)

The District is a member of SELF, which has been formed to reduce local school districts' workers' compensation costs. SELF is controlled by a Board of Directors which is composed of representatives designated by each school district. The day-to-day operations of SELF are managed through and Executive Board elected by the Board of Directors. Each member district has a financial responsibility for annual membership contributions, which are calculated to provide for administrative expenses, specific and aggregate excess insurance coverage, and the funding of a portion of anticipated losses and loss adjustment expenses which will be borne directly by the membership. The losses and loss adjustment expenses to be borne by the membership are those which must be incurred prior to the attachment of excess insurance coverage. Complete financial statements for SELF can be obtained from their accountant at Two Pierce Place, Itasca, IL 60143.

# 12. JOINT VENTURE - WILMETTE COMMUNITY SPECIAL EDUCATION AGREEMENT (WCSEA)

The District and other districts have entered into a joint agreement to provide special education programs and services to the students enrolled. Each member district has a financial responsibility for annual and special assessments as established by the policy board. Complete financial statements for the Agreement can be obtained from the Administrative Offices at 615 Locust Road Wilmette, Illinois 60091.

Notes To Financial Statements (continued) June 30, 2019

#### 13. STATE AND FEDERAL AID CONTINGENCIES

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

# 14. CONTINGENT LIABILITIES

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorneys, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

#### **Notes to Schedule**

Valuation date Actuarially determined contribution rates are calculated as of

December 31 of each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Aggregate entry age normal Level percent of payroll, closed

Remaining amortization period 25 years, closed

Asset valuation method 5-year smoothed market; 20% corridor

Wage growth 3.50% Price inflation 2.75%

Salary increases 3.75% to 14.75 including inflation%

Investment rate of return 7.50%

Retirement age Experience-based table of rates that are specific to the type of

eligibility condition. Last updated for the 2014 valuation pursuant

to an experience study of the period 2011 - 2013.

Mortality For non-disabled retirees, an IMRF specific mortality table was

used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific

projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Other Information:

Notes There were no benefit changes during the year.

#### **Notes to Schedule**

#### Changes of assumptions

For the 2018, 2017 and 2016 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit, but the rates increase in the 2018 measurement year were slightly higher.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

For the 2014 measurement year, the assumed investment rate of return was also 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. However, salary increases were assumed to vary by age.

<sup>\*</sup> The amounts presented have a measurement date of the previous fiscal year end.

Notes To Required Supplementary Information June 30, 2018

#### **BUDGETS AND BUDGETARY ACCOUNTING**

Annual budgets for all Governmental Funds are adopted on the modified accrual basis, consistent with generally accepted accounting principles (GAAP) for local governments. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the Governmental Funds. All encumbrances are canceled at year end, and, if necessary, are reinstated at the beginning of the subsequent fiscal year.

Legal spending control for District moneys is at the fund level, but management control is exercised at budgetary line item levels within each fund. The Board of Education, in accordance with Chapter 105, Section 5/17-1 of the *Illinois Compiled Statutes*, follows these procedures in establishing the budgetary data reflected in the financial statements:

- The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- 3. Prior to September 30 the budget is legally adopted through passage of a resolution. On or before the last Tuesday in December, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- 4. The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund without Board of Education approval; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education following the public hearing process mandated by law. The budget, which was not amended, was adopted on August 27, 2018.
- 5. Formal budgetary integration is employed as a management control device during the year for the Governmental Funds.
- 6. The District has adopted a legal budget for all its Governmental Funds. Total actual expenditures for the governmental funds may not legally exceed the total budgeted for such funds. However, under the State Budget Act expenditures may exceed the budget if additional resources are available to finance such expenditures.
- 7. The budget (all appropriations) lapses at the end of each fiscal year. 1

#### STATISTICAL SECTION (UNAUDITED)

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.
